Although these volumes are useful in and of themselves, their maximum usefulness requires the availability and use of the *Mental Measurements Yearbooks*. Although information on available tests and specific test bibliographies is valuable, the greatest service which *Tests in Print* can perform is to encourage test users to choose tests more wisely by consulting the MMY test reviews, test reviews from journals and the professional literature on the construction, use, and validity of the tests being considered. *Tests in Print IV* contains information on over four thousand instruments. Along with a brief description, entries include population, scoring, pricing, publisher information, and a reference list of professional literature citing articles relevant to individual instruments. Indexes of titles, classified subjects, names, and scores, as well as a publisher's directory and index, are included with notations for out-of-print instruments. Information is given for tests in a wide range of areas, including education, psychology, counseling, management, health care, career planning, sociology, child development, social science, and research. *Tests in Print IV* also
