*Time-Saving Tips for Teachers* Joanne C. Wachter, Clare Carhart, 2003-05-30 Praise for the first edition: As a primary teacher for 33 years I thought I had made all the time management adjustments possible until I read Time Saving Tips for Teachers. Now I know you can teach an old dog new tricks about conferencing, planning, assessing students, filing, handling absences and a whole lot more. No more Sunday Night Blues! Marilyn Kirschner, Elementary Teacher, Taneytown Elementary School, Maryland.

*Time Saving Tips for Teachers* Marilyn Kirschner, Elementary Teacher, Taneytown Elementary School, Maryland. This is a must read for teachers who coach, serve on committees, have families or do all of the above. New teachers will find that it makes that first year less overwhelming. The time spent to read this book will be recovered many times over. The reproducible pages are an invaluable resource.

Francis M. McCullin, Mathematics Instructor, Westminster West Middle School, Maryland. No time. Now the update to the best selling first edition is packed with even more practical, tested ideas and resources to help you contain your job and still maintain high standards.

Francis M. McCullin, Mathematics Instructor, Westminster West Middle School, Maryland. Let's face it as a teacher you need and deserve a secretary and at least one assistant. But since that kind of support is unlikely, this is the book that will help you continue to be a good teacher without going crazy. The format lets you browse through the chapters and apply the ideas that fit your immediate needs and style. The second edition now includes over 60 reproducible forms that you can use right away, covering student and parent information, reading and writing, coaches, homework standards for assignments and supplies just to name a few. New tips include portfolios, substitute teachers, email, handheld computers and the Internet. Chapters provide ideas on how to save time without diminishing quality by communicating effectively but briefly, managing materials, planning the week ahead, learning to say no, using the Internet to save time, working with substitutes and volunteers, creating a filing system that saves time, avoiding distractions, treating yourself as a professional, learning to work smarter with time saving tips and enjoy your life outside of teaching once again.
