This book opens up a comprehensive exploration in the fields of art design, architecture, and fashion. It outlines rigorous research efforts examining topics ranging from proposing innovative solutions for color identification among individuals with color blindness in clothing to analyzing the complex relationship between social media influences such as TikTok and consumption patterns on platforms such as Shein. Moreover, the discourse extends to the subtle use of non-woven fabric in the textile, clothing, and fashion industries, providing a comprehensive look at industry practices. The chapters also shed light on practical applications of theoretical knowledge as evidenced in the study detailing professional practices at Braz Fashion Company, particularly the curation of visual content for social media platforms, further highlighting the synergy between industry practices and academic research. Additionally, the book introduces intriguing concepts such as spatial production and the role of pop-up dynamics in urban interiors and culminates in an exploration of the multifaceted influence of central and regional governments on community behavior in Sangiran, a UNESCO heritage site. This collaborative effort curated by expert participants aims not only to expand knowledge horizons in relevant fields but also to serve as a catalyst for interdisciplinary dialogue and innovation. I would like to express my heartfelt gratitude to the valuable authors who enriched this book with their dedication. I sincerely hope that this book will illuminate uncharted paths for researchers and provide an inspiring guide.
