Generative AI in Creative Industries

Amina Al-Marzouqi, Said Salloum, Khaled Shaalan, Tarek Gaber, Ra'ed Masa'deh, 2025-07-04 This book compiles a comprehensive collection of pioneering research that addresses the multifaceted challenges and theoretical aspects of Generative AI in creative industries. Generative AI, a groundbreaking technological development, has been carving a significant niche within the creative industries. This innovative form of AI, exemplified by models like OpenAI's ChatGPT, is not only transforming the landscape of human-like text generation but is also radically reshaping creative fields such as music, literature, and visual arts. In the realm of creative industries, Generative AI serves as a catalyst for artistic innovation, offering tools for artists to push the boundaries of creativity. It assists in composing music, generating unique artworks, and even writing stories or scripts, thereby democratizing the creative process. The integration of Generative AI in these industries promises a synergy between human creativity and machine intelligence, potentially leading to novel genres and forms of art. Despite its transformative potential, the incorporation of Generative AI in creative fields is not devoid of challenges. Ethical considerations such as authorship rights, originality, and the impact on traditional creative roles are pivotal. Moreover, the authenticity and emotional depth of AI-generated content compared to human-created art is a subject of ongoing debate. The book aims to feature original manuscripts encompassing a wide array of topics from the development of new generative technologies and their practical application in creative fields to critical analysis of the ethical, legal, and cultural implications of these systems. By gathering the latest advancements in this field and spotlighting emerging avenues for research, this book serves as an invaluable resource and guide for researchers, artists, and practitioners operating at the intersection of Generative AI and creative industries.

25 Things You Should Know about Artificial Intelligence Art and Copyright Pablo Fernández Carballo-Calero, 2023 **Art Intelligence** Jan Svenungsson, 2024-06-04 Artists always react to the times in which they live. They may celebrate them or criticize them, often trying to change them. But this is the first time in history that technology controlled by private companies is offering to replace the work of writers, musicians, illustrators, and visual artists. What impact will generative AI have on how we create art and how we understand what art is for? How will it affect the role of the artist in the future and the conditions under which artists will work? Jan Svenungsson tackles these questions, investigating what AI might do for art and what it might change, circling the core issue of what it is in human art making that cannot be replaced.
