**Relevant Query Answering over Streaming and Distributed Data** Shima Zahmatkesh, Emanuele Della Valle, 2020-01-21 This book examines the problem of relevant query answering over the Web and provides a comprehensive overview of relevant query answering over streaming and distributed data In recent years Web applications that combine highly dynamic data streams with data distributed over the Web to provide relevant answers have attracted increasing attention Answering in a timely fashion i e reactively is one of the most important performance indicators especially when the distributed data is evolving The book proposes a solution that retains a local replica of the distributed data and offers various maintenance policies to refresh the replica over time A limited refresh budget guarantees the reactivity of the system Focusing on stream processing and Semantic Web it appeals to scientists and graduate students in the field

**Forest and Stream**, 1893 *Streaming and Copyright Law* Lasantha Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content s infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been

given less attention when determining website blocking injunctions      **Field and Stream** ,1958      **Computer Basics Absolute Beginner's Guide, Windows 8.1 Edition** Michael Miller,2013-12-26 Make the most of your new Windows 8 1 notebook desktop computer or tablet without becoming a technical expert This book is the fastest way to get comfortable get productive get online get started with social networking make more connections and have more fun Even if you ve never used a Windows computer before this book shows you how to do what you want one incredibly clear and easy step at a time Computer basics have never ever been this simple Who knew how simple using computers could be This is today s best beginner s guide to using your computer or tablet with the new Windows 8 1 operating system simple practical instructions for doing everything you really want to do Here s a small sample of what you ll learn Set up Windows 8 1 and get online fast Use the new Windows 8 1 Modern interface Get started with social networking on Facebook Twitter Pinterest and LinkedIn Use Windows 8 1 s built in apps and find great new apps in the Windows Store Connect printers and external storage and set up automatic file backup Create a home network in just minutes Go online to shop sell your stuff manage your money and do research Get your office work done fast Organize view and share photos Play music using Windows 8 1 iTunes or streaming music services Watch TV shows and movies online Protect yourself against viruses spyware and spam Keep your system running reliably at top speed      The Virginias, a Mining, Industrial & Scientific Journal, Devoted to the Development of Virginia and West Virginia ,1882      Brand Book Westerners.
