**National Parks and Rural Development** Gary E. Machlis, Donald Field, 2000-09 Protecting land in parks is often seen as coming at the expense of rural economic development Yet recent events such as the contentious debate over the development of Canyon Forest Village on the south rim of the Grand Canyon suggest just the opposite healthy natural systems can be enormously valuable to rural economies National Parks and Rural Development offers a thorough examination of the interdependent roles of national parks and the economies of rural communities in the United States Bringing together the thinking and views of economists historians sociologists recreation researchers and park managers the book considers how those roles can be most effectively managed as it offers a wide ranging review of history and important concepts in rural development and parks management five case studies of rural development near national parks that identify lessons learned principles applied mistakes committed and advances made personal essays from leaders in the parks management field For each section the editors offer introductory discussions that provide context and highlight key points The editors also provide a detailed conclusion which summarizes policy implications and presents specific recommendations for improving rural development and park management policies Case studies include Cape Cod National Seashore Alaskan parks and wilderness areas Yellowstone National Park the Grand Canyon and three parks in the Pacific Northwest Mt Rainier Olympic and North Cascades ational Parks and Rural Development is a unique synthesis and guide to solving conflicts between the needs of human communities and nature near federal lands It will be an important work for agency personnel nongovernmental organizations and students and scholars of rural economic development public policy environmental economics and related fields      **Technology, Innovation, and Regional Economic Development**, 1984 In recent years state and local governments universities and private sector groups have become increasingly active in promoting

technological innovation and technology based business development in their local economies These efforts have resulted in productive new forms of partnership and cooperation at all levels While federal programs have sometimes supported these efforts and while recent changes in federal policy have improved the climate for high technology development initiatives in most cases both the initiative and the ongoing leadership have come from imaginative state and local leaders This five chapter report provides 1 an overview of high technology development HTD 2 a definition and analysis of high technology industries 3 a discussion of entrepreneurship and venture capital in HTD 4 a discussion of state and local government university and private sector initiatives for HTD and 5 an examination of the federal role in regional HTD Three reports are appended they concern 1 the theoretical base for high technology location and regional development 2 a regional assessment of the formation and growth in high technology firms and 3 a preliminary investigation of recent evidence on high technology industries spatial tendencies One factor examined in the latter report is the nature and diversity among high technology industries in both growth performance and locational tendencies JN Parks and Economic Development John L.
