Gaming and Gamers in Times of Pandemic Piotr Siuda, Jakub Majewski, Krzysztof Chmielewski, 2024-01-11 This edited collection brings in multiple scholarly perspectives to examine the impact of the pandemic and resulting government policies especially lockdowns on one particular cultural sphere games. The COVID 19 pandemic has impacted virtually every aspect of our lives regardless of where we live. In the initial months many industry reports noted the unexpected positive impact on online digital game sales. Games were not just lockdown proof but boosted by lockdowns. Stay at home orders triggered a rush toward games as an alternative form of entertainment and the ubiquity of mobile phones allowed wider than ever participation. Gaming and Gamers in Times of Pandemic studies how the COVID 19 pandemic affected game players, game developers, game journalists, and game scholars alike in many other ways starting with the most direct illness and sometimes death. Some effects are temporary others are here to stay.

Generation Gap Kevin Munger, 2022-06-07 The Baby Boomers are the largest and most powerful generation in American history and they aren't going away any time soon. They are on average whiter, wealthier, and more conservative than younger generations. They dominate cultural and political institutions and make up the largest slice of the electorate. Generational conflict with Millennials and Generation Z pitted against the aging Boomer cohort has become a media staple. Older and younger voters are increasingly at odds. Republicans as a whole skew gray-haired and within the Democratic Party the left-leaning youth vote propels primary challengers. The generation gap is widening into a political fault line. Kevin Munger marshals novel data and survey evidence to argue that generational conflict will define the politics of the next decade. He examines the historical trends that made the Baby Boomers so consequential and traces the emergence of age-based political and cultural divisions. Boomers continue to prefer the media culture of their youth but Millennials and Gen Z are using the internet to render legacy institutions irrelevant. These divergent media habits have led more people than ever to identify with their generation. Munger shows that a common cohort consciousness binds aging Boomer voters into a bloc but a shared identity and purpose among Millennials and Gen Z could topple Boomer power. Bringing together expertise in data analysis and digital culture with keen insight into contemporary politics, Generation Gap explains why the Baby Boomers remain so dominant and how quickly that might change.
