Placing Nature on the Borders of Religion, Philosophy and Ethics Dr Forrest Clingerman, Mr Mark H Dixon, 2013-06-28

The natural world has been humanized even areas thought to be wilderness bear the marks of human impact But this human impact is not simply physical At the emergence of the environmental movement the focus was on human effects on nature More recently however the complexity of the term nature has led to fruitful debates and the recognition of how human individuals and cultures interpret their environments This book furthers the dialogue on religion ethics and the environment by exploring three interrelated concepts to recreate to replace and to restore Through interdisciplinary dialogue the authors illuminate certain unique dimensions at the crossroads between finding value creating value and reflecting on one's place in the world Each of these terms has diverse religious ethical and scientific connotations Each converges on the ways in which humans both think about and act upon their surroundings And each radically questions the damaging conceptual divisions between nature and culture human and environment and scientific explanation and religious ethical understanding This book self consciously reflects on the intersections of environmental philosophy environmental theology and religion and ecology stressing the importance of how place interprets us and how we interpret place In addition to its contribution to environmental philosophy this work is a unique volume in its serious engagement with theology and religious studies on the issues of ecological restoration and the meaning of place

Bergeå,Andrea Feldpausch-Parker,Kaisa Raitio,2016-04-28 As society has become increasingly aware of environmental issues the challenge of structuring public participation opportunities that strengthen democracy while promoting more sustainable communities has become crucial for many natural resource agencies industries interest groups and publics The processes of negotiating between the often disparate values held by these diverse groups and formulating and implementing policies that enable people to fulfil goals associated with these values can strengthen communities as well as tear them apart This book provides a critical examination of the role communication plays in social transition through both construction and destruction of community The authors examine the processes and practices put in play when people who may or may not have previously seen themselves as interconnected communicate with each other often in situations where they are competing for the same resources Drawing upon a diverse selection of case studies on the American Asian and European continents the chapters chart a range of approaches to environmental communication including symbolic construction modes of organising and agonistic politics of communication This volume will be of great interest to researchers teachers and practitioners of environmental communication environmental conflict community development and natural resource management

**Ecological Urbanism** Mohsen Mostafavi,Gareth Doherty,2010-04-15 With

the aim of projecting alternative and sustainable forms of urbanism the book asks What are the key principles of an ecological urbanism How might they be organized And what role might design and planning play in the process While climate change sustainable architecture and green technologies have become increasingly topical issues surrounding the sustainability of the city are much less developed The premise of the book is that an ecological approach is urgently needed both as a remedial device for the contemporary city and an organizing principle for new cities Ecological urbanism

approaches the city without any one set of instruments and with a worldview that is fluid in scale and disciplinary approach Design provides the synthetic key to connect ecology with an urbanism that is not in contradiction with its environment The book brings together design practitioners and theorists economists engineers artists policy makers environmental scientists and public health specialists with the goal of reaching a more robust understanding of ecological urbanism and what it might be in the future Contributors include Homi Bhabha Stefano Boeri Chuck Hoberman Rem Koolhaas Sanford Kwinter Bruno Latour Nina Marie Lister Moshen Mostafavi Matthias Schuler Sissel Tolaas Charles Waldheim *The Horticulturist*, 2021

**The Publishers Weekly**, 2008 **Handbuch kritische Stadtgeographie** Bernd Belina, Matthias Naumann, Anke Strüver, 2014 Nach fünf Auflagen in den letzten zehn Jahren präsentiert sich das Handbuch Kritische Stadtgeographie komplett aktualisiert und erweitert. Die 72 Einträge zu Theorien, Methoden und Themen Kritischer Stadtgeographie verfasst von ausgewiesenen Autoren sind teils ganz neu geschrieben, teils grundlegend bearbeitet worden. Urbane Phänomene, Konflikte und Komplexe wandeln sich mit der Entwicklung von Stadtten. Die Kritische Stadtgeographie tritt dazu bei diesen zu benennen zu erklären sowie progressive Lösungen anzubieten, um sie zu formulieren. Auch hilft sie zu verstehen, welche Interessen, Koalitionen und Strukturen emanzipatorische Initiativen unterstützen, in viel zu vielen Fällen aber auch blockieren oder verunmöglichen. Neben Einführungen in relevante Theorien, Methoden und Begriffe finden sich auch zahlreiche Einträge in denen aktuelle Themen politischer Praxis in Städten diskutiert werden. Das Handbuch hilft Studierenden ab dem ersten Semester sowie auch Menschen jenseits von Lehre und Forschung dabei, sich der Kritischen Stadtgeographie zu nähern.

**Jugend und Politik** Peter Filzmaier, 2015 Allzu oft wird der Jugend in der Alltagsmeinung sowohl ein starkes Desinteresse an Politik zugeschrieben als auch was ein Widerspruch in sich ist eine besondere Radikalität in ihrem politischen Handeln unterstellt. Entgegen allen Klischees sehen auch bis zu 80 Prozent der Jugendlichen der Zukunft zuversichtlich entgegen. Allerdings rechnen sie mit negativen Entwicklungen der steirischen Gesellschaft, etwa dass Sozialleistungen immer schwieriger finanziert werden. Genauso sind Wirtschaft, Arbeitsplätze und Integration polarisierende Themen. Die Politik steht vor der Herausforderung, einen verschiedenen Altersgruppen und Nationalitätenkonflikt zu verhindern. Vor dem Hintergrund der 2012 in Steiermark initiierten Jugendstrategie für 14 bis 24-Jährige und der EU-Jugendstrategie 2010-2018 werden jenseits von Vorurteilen und Stereotypen die politischen Einstellungen der Jugend ihre gesellschaftlichen Beteiligungsinteressen sowie die Pläne der Jugendpolitik auf empirischer Datenbasis analysiert. *Ympäristö, estetiikka ja hyvinvointi* Arto Haapala, Kalle Puolakka, Tarja Rannisto, 2015 This collection of essays looks at the issue of human well-being from the point of view of environmental aesthetics. Questions addressed include: What role do aesthetic values have in advancing well-being? Are there environments that are particularly supportive of well-being? What is the place of aesthetic factors in environmental and city planning? The authors of the first part of the book illuminate the relationship between aesthetics and well-being by discussing such notions and ideas as aesthetic well-being, interactive environmental planning.
