Books Out Loud ,2007 *Terror on the Air!* Richard J. Hand,2012-10-26 The macabre world of monsters killers on the loose and revenge from beyond the grave existed not only in the movies but also on the radio before television s dominance in American homes One of many distinct genres born of early broadcasting terror inspiring radio thrilled millions Nearly 80 such programs many of enduring sophistication aired every week in the late 1940s This first full length study of golden age horror radio focuses on six representative programs starting with *The Witch s Tale* in 1931 and ending with *The Mysterious Traveler* in 1952 Each chapter is a critically and historically informed study of one series The book ends with a look at the demise of horror radio and its enduring influence Photographs are included *Air & Space Smithsonian* ,2000 **Words on Cassette, 2002** R R Bowker Publishing,2002 *In the Best Interest of Students* Kelly Gallagher,2023-10-10 In his new book *In the Best Interest of Students Staying True to What Works in the ELA Classroom* teacher and author Kelly Gallagher notes that there are real strengths in the Common Core standards and there are significant weaknesses as well He takes the long view reminding us that standards come and go but good teaching remains grounded in proven practices that sharpen students literacy skills Instead of blindly adhering to the latest standards movement Gallagher suggests Increasing the amount of reading and writing students are doing while giving students more choice around those activities Balancing rigorous high quality literature and non fiction works with student selected titles Encouraging readers to deepen their comprehension by moving beyond the four corners of the text Planning lessons that move beyond Common Core expectations to help young writers achieve more authenticity through the blending of genres Using modeling to enrich students writing skills in the prewriting drafting and revision stages Resisting the de emphasis of narrative and imaginative reading and writing Amid the frenzy of trying to teach to a new set of standards Kelly Gallagher is a strong voice of reason reminding us that instruction should be anchored around one guiding question What is in the best interest of our students *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004 *Subject Guide to Books in Print* ,1991 *Congressional Record* United States. Congress,1974 *Listening to Radio, 1920-1950* Ray Barfield,1996-07-30 Ray Barfield has done something quite new in media studies Rather than trace the history of radio through the usual route he has sought out a body of oral history from those who grew up with and listened to radio He has not only collated the responses of his informants but placed their comments in a larger cultural and historical context and thus provided a kind of history from the ground up He demonstrates thereby just how important and influential radio was in the lives of ordinary Americans General readers and scholars alike will learn something from Barfield s engaging narrative about why radio was once such a compelling force in our culture From the Foreword by Thomas Inge This fresh and engaging account of early radio s contributions to U S social and cultural life brings together varied perspectives of listeners who recall the programs that delighted and entranced them The first electronic medium to enter the home radio is examined as a chief purveyor of family entertainment and as a bridge

across regional differences Barfield draws from over 150 accounts providing a forum and a context for listeners of early radio to share their memories from their first impressions of that magical box to favorite shows Opening chapters trace the changing perceptions of radio as a guest or an invader in U S homes during the exuberant 1920s the cash scarce 1930s and the rapidly changing World War II and post war years Later chapters offer listener responses to every major program type including news reporting and commentary sportscasts drama comedy series crime and terror shows educational and cultural programs children s adventure series soap operas audience participation shows and musical presentations This fresh and engaging account of early radio s contributions to U S social and cultural life brings together varied perspectives of listeners who recall the programs that delighted and entranced them The first electronic medium to enter the home radio is examined as a chief purveyor of family entertainment and as a bridge across regional differences Barfield draws from over 150 accounts providing a forum and a context for listeners of early radio to share their memories from their first impressions of that magical box to favorite shows Opening chapters trace the changing perceptions of radio as a guest or an invader in U S homes during the exuberant 1920s the cash scarce 1930s and the rapidly changing World War II and post war years Later chapters offer listener responses to every major program type including news reporting and commentary sportscasts drama comedy series crime and terror shows educational and cultural programs children s adventure series soap operas audience participation shows and musical presentations
