Declarative Logic-Programming Components for Information Agents Michael Fink,2002-12-30 Inhaltsangabe Abstract At present the World Wide Web faces several problems regarding the search for specific information arising on the one hand from the vast number of information sources available and on the other hand from their intrinsic heterogeneity A promising approach for solving the complex problems emerging in this context is the use of information agents in a multi agent environment which cooperatively solve advanced information retrieval problems An intelligent information agent provides advanced capabilities resorting to some form of logical reasoning based on ad hoc knowledge about the task in question and on background knowledge of the domain suitably represented in a knowledge base In this thesis our interest is in the role which some methods from the field of declarative logic programming can play in the realization of reasoning capabilities for intelligent information agents We consider the task of updating extended logic programs ELPs since in order to ensure adaptivity an agent s knowledge base is subject to change To this end we develop update agents which follow a declarative update policy and are reimplemented in the IMPACT agent environment The proposed update agents adhere to a clear semantics and are able to deal with incomplete or inconsistent information in an appropriate way Furthermore we introduce a framework for reasoning about evolving knowledgebases which are represented as ELPs and maintained by an update policy We describe a formal model which captures various update approaches and define a logical language for expressing properties of evolving knowledge bases We further investigate these logical properties of knowledge states with respect to reasoning In particular we describe finitary characterizations of the knowledge evolution and derive complexity results for our framework Finally we consider a particular problem of information agents namely information source selection and develop an intelligent site selection agent We use ELPs for representing relevant knowledge and for declarative query analysis and query abstraction We define syntax and semantics of declarative site selection programs making use of advanced methods from answer set programming for priority handling and quantitative reasoning A site selection component is implemented on top of the DLV KR system and its plp front end for prioritized ELPs We report experimental results for this implementation      Runner's World ,2003      Handbook on Digital Business Ecosystems Baumann, Sabine,2022-04-22 This timely Handbook on Digital Business Ecosystems provides a comprehensive overview of current research and industrial applications as well as suggestions for future developments Multi disciplinary in scope the Handbook includes rigorously researched contributions from over 80 global expert authors from a variety of areas including administration and management economics computer science industrial engineering and media and communication      *From Impressed to Obsessed: 12 Principles for Turning Customers and Employees into Lifelong Fans* Jon Picoult,2021-10-12 If you re aspiring to satisfy your customers then you re aspiring to mediocrity That s the fascinating premise of *From Impressed to Obsessed* a

book that will fundamentally change how you think about creating a successful beloved business Acclaimed customer experience expert Jon Picoult explains why building customer loyalty requires leaving indelible positive impressions on everyone you work with not just shaping their experiences but also shaping their memories Picoult explores the cognitive science behind great customer experiences pinpointing the breakthrough psychology based strategies that both industry leaders like Apple Disney and Southwest Airlines as well as fast growing startups like BILT and Framebridge use to shape people s perceptions and sculpt unforgettable impressions thereby turning more sales prospects into customers and more customers into obsessed brand ambassadors Packed with intriguing case studies engaging stories and eye opening research the book details these proven principles and illustrates how they can be applied to almost any type of business or customer Examples include cases that show how to Create Peaks Avoid Valleys leverage the science of memory to etch positive impressions in people s minds by creating greater experiential peaks and fewer experiential valleys Give the Perception of Control the almost magical power of giving customers a sense of agency via choice and expectation setting causing them to feel better about the experience a business is already delivering Make It Effortless make interactions easy for customers not just from a physical perspective but also a cognitive one to satisfy today s demand for simplicity and convenience Stir Emotion harness the power of emotion as a memory cue by infusing customer experiences with emotional resonance highlighting positive feelings while stemming negative ones No matter what kind of constituency you serve customers or colleagues individuals or institutions employees or employment candidates this book will help you do it with distinction Picoult s message is particularly relevant for managers as he shows the parallels between how great companies cultivate engagement with customers and how great leaders accomplish the same with their workforce From Impressed to Obsessed reveals the what the why and most importantly the how behind great customer experiences Filled with actionable insights the book provides an invaluable roadmap for becoming the company that everyone wants to do business with the employer everyone wants to work for and the leader everyone wants to follow **Flying Magazine** ,1991-05 Computerworld ,2003-10-06 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network *Credit Decisions* ,1994-10 **Billboard** ,1996-12-28 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends
