## **Metropolitan Century Understanding Urbanisation Consequences:**

The Metropolitan Century Understanding Urbanisation and its Consequences OECD,2015-02-18 The report provides an outline of recent and likely future urbanisation trends and discusses the consequences The Metropolitan century : understanding urbanisation and its consequences ,2015 **OECD Urban Studies Cities in the World A New Perspective on Urbanisation** OECD,European Commission,2020-06-16 Cities are not only home to around half of the global population but also major centers of economic activity and innovation Yet so far there has been no consensus of what a city really is Substantial differences in the way cities metropolitan urban and rural areas are defined across countries hinder robust international comparisons and an accurate monitoring of SDGs The report Cities in the World A New Perspective on Urbanisation addresses this void and provides new insights on urbanisation by applying for the first time two new definitions of human settlements to the entire globe the Degree of Urbanisation and the Functional Urban Area The Elgar Companion to Urban Infrastructure Governance Finger, Matthias,Yanar, Numan,2022-04-22 A comprehensive overview of the governance of urban infrastructures this Companion combines illustrative cases with conceptual approaches to offer an innovative perspective on the governance of large urban infrastructure systems Chapters examine the challenges facing urban infrastructure systems including financial economic technological social ecological jurisdictional and demand

OECD Regional Development Studies Productivity and Jobs in a Globalised World (How) Can All Regions Benefit? OECD,2018-04-26 This report looks at how regional policies can support productivity growth and jobs While there has been a remarkable decline in inequality in OECD countries inequality among regions within certain countries has increased over the same time period Regions that narrowed productivity gaps **OECD Territorial Reviews: The Metropolitan Region of Rotterdam-The Hague, Netherlands** OECD,2016-02-01 This report examines the Netherland s new Metropolitan Region of Rotterdam The Hague MRDH drawing on lessons from governance reforms in other OECD countries and identifying how the MRDH experience could benefit policy makers beyond Dutch borders **Steering the Metropolis** Inter American Development Bank,United Nations Human Settlements Programme,Development Bank of Latin America,2017-10-24 A distinctive feature of urbanization in the last 50 years is the expansion of urban populations and built development well beyond what was earlier conceived as the city limit resulting in metropolitan areas This is challenging the relevance of traditional municipal boundaries and by extension traditional governing structures and institutions Steering the Metropolis Metropolitan Governance for Sustainable Urban Development encompasses the reflections of thought and practice leaders on the underlying premises for governing metropolitan space sectoral adaptations of those premises and dynamic applications in a wide variety of contexts Those reflections are structured into three sections Section 1 discusses the conceptual underpinnings of metropolitan governance analyzing why political technical and administrative arrangements at this level of government are needed Section 2 deepens the discussion by addressing specific sectoral themes of mobility land use

planning environmental management and economic production as well as crosscutting topics of metropolitan governance finance and monitoring and evaluation Section 3 tests the concepts and their sectoral adaptations against the practice with cases from Africa America Asia and Europe

Mohammed,2021-07-27 Master s Thesis from the year 2015 in the subject Urban and Regional Planning grade 65 00

University of Twente language English abstract Focusing on Greater Kumasi Metropolitan Area GKMA the fastest growing metropolitan area in Ghana this study aims to understand the spatio temporal dynamics of GKMA s growth the factors driving this process and to quantify their relative contributions First growth patterns during the periods 1986 2001 and 2001 2014 in were analysed Spatial metrics were used to deepen the understanding of the patterns of growth This revealed that of the three growth types identified in both periods edge expansion was predominant in both cases Analyses of the driving forces of GKMA s growth was done using Spatial Logistic Regression modelling approach A review of literature coupled with consultations with experts during fieldwork assisted in identifying locally relevant driving forces of the area s growth Two models were constructed on basis of the identified drivers for the periods 1986 2001 and 2001 2014 The performance of both models was evaluated and validated to identify the one that best simulates GKMA s growth The estimated coefficients and associated odds ratio of the models were used in assessing the individual contributions of the driving forces The results from the analysis showed that distance to urban cluster distance to CBD distance to major roads and the proportion of urban cells in 7x7 neighbourhood which are common to both time periods were among the top four drivers of urban growth in both periods though with varying levels of influence Population density was identified as the most important driver of growth during 2001 2014 Finally predictions of future growth were made based on the 2001 2014 model The results of the model s prediction mimic past trends of the area s growth This is because predicted growth is shown to mimic the layout of major roads as observed in reality The study also simulated future growth based on proposed public investment on new roads so as to understand how this will influence future growth The results from the predicted scenario showed new growth occurring

which were however not associated with the updated factor This study attributed the decline in influence of the updated factor to correlation among the variables Overall the results of the study shows that the integration of remote sensing GIS spatial metrics and logistic regression provide a powerful collection of tools for understanding the spatio temporal dynamics of urban growth     *Explaining Crime* Paul S. Maxim,Paul C. Whitehead,1998 Explaining Crime Fourth Edition retains the exceptional organization and content of the original editions with completely updated statistics and references It is ideally suited for a one semester course that serves as an introduction to criminology by dealing with three issues definition of crime measurement of crime and theories of crime Throughout the text the attitude is critical Criticism rests on three standards clarity of concepts quality of evidence and utility of theory for public policy Thoroughly revised version of a classic textbook Introductory text dealing with definition measurement and explanations of crime     **Urbanization in Asia and the Far East** Philip M.
