Here it is presented with regard to the continuity of the development of the Modern Movement its revisionist criticism pioneering examples as well as contemporary examples and uses The typology of the capsule allows us to consider this theme in terms of the architecture of resistance with the potential to search for an other architecture that is embedded in our contemporaneity manifested in small dwellings composite structures and container units shelters and mobile homes in nature and the urban environment technology transfer in high tech designs devices additions and extensions etc. The concept of the capsule as a building element of architecture as well as a spatial element can therefore be regarded as having a generative potential for an architecture of personal space for the individual forcing us to reflect on our existing living and dwelling conditions **Kapsula** Peter Šenk, 2015-03-01 Knjiga obravnava arhitekturno oblikovalsko in urbanisti no tipologijo kapsule ki je predvsem v estdesetih letih 20 stoletja redefinirala koncept osnovnega gradnika arhitekture odtej je ta lahko tudi enofunkcijska ali bivalna minimalna enota imenovana kapsula.
