History and Future of Religious Thought: Christianity, Hinduism, Buddhism, Islam Philip H. Ashby, 1963 The History and Future of Religious Thought asks the imposing questions what are the vital and enduring elements in the world's greatest religions By tracing the major themes of man's most powerful religions Dr Ashby noted historian of religions shows that each of these religions has survived the challenges of attack and novelty by virtue of its ability to state its faith in terms relevant to the society in which it has flourished Now to retain their influence Dr Ashby argues the major religions confront a two-fold responsibility they must become fully conscious of the theological philosophical resources which have given them strength and relevance in the past at the same time they must free themselves from provincial orientations and express their universal themes meaningfully to all peoples Publisher

Islam, Friend Or Foe? Emilio Platti, 2008 In this study Emilio Platti dares to enquire directly into the compatibility between Islam and Christianity as well as between Islam and modernity He insists that the best way to answer such questions is to return to the origins of the Islamic tradition What precisely does the Qur'an have to say about Christians How can we explain the resentment towards the West that seems to characterize some Muslims Does the so-called clash of civilizations have its roots in Islamic theology How did the negative portrait of Muslims that was characteristic of the Latin Middle Ages come about Is it possible to speak in a monolithic fashion about Islam Is it really the case that Muslims must set about developing a new identity What is the relationship between Islamic law and modern theories of human rights What does it mean to be a believer and might this not be the real heart of the tensions and controversies that mark so much of the contemporary encounter between Islam and the West Platti's study engages both classical and contemporary readings of the Islamic tradition and offers a nuanced and challenging view not only of its past but of its present and of the directions it might take in the years ahead
