Pbl With Fractions And Decimals:

Large-Scale Studies in Mathematics Education James A. Middleton, Jinfa Cai, Stephen Hwang, 2015-05-05 In recent years funding agencies like the Institute of Educational Sciences and the National Science Foundation have increasingly emphasized large scale studies with experimental and quasi experimental designs looking for objective truths Educational researchers have recently begun to use large scale studies to understand what really works from developing interventions to validation studies of the intervention and then to efficacy studies and the final scale up for large implementation of an intervention Moreover modeling student learning developmentally taking into account cohort factors issues of socioeconomics local political context and the presence or absence of interventions requires the use of large data sets wherein these variables can be sampled adequately and inferences made Inroads in quantitative methods have been made in the psychometric and sociometric literatures but these methods are not yet common knowledge in the mathematics education community In fact currently there is no volume devoted to discussion of issues related to large scale studies and to report findings from them This volume is unique as it directly discusses methodological issue in large scale studies and reports empirical data from large scale studies

Successfully Implementing Problem-Based Learning in Classrooms

Thomas Brush, John W. Saye, 2017-03-15 Problem based learning PBL represents a widely recommended best practice that facilitates both student engagement with challenging content and students ability to utilize that content in a more flexible manner to support problem solving This edited volume includes research that focuses on examples of successful models and strategies for facilitating preservice and practicing teachers in implementing PBL practices in their current and future classrooms in a variety of K 12 settings and in content areas ranging from the humanities to the STEM disciplines This collection grew out of a special issue of the Interdisciplinary Journal of Problem Based Learning It includes additional research and models of successful PBL implementation in K 12 teacher education and classroom settings
