*Trump and Us* Roderick P. Hart, 2020-02-14 Trump won the presidency not because of partisanship policy or economic factors but because of how he makes people feel **The Meritocracy Trap** Daniel Markovits, 2019-09-10 This book flips your world upside down Daniel Markovits argues that meritocracy isn't a virtuous efficient system that rewards the best and brightest Instead it rewards middle class families who can afford huge investments in their children's education Frightening eye opening stuff The Times Books of the Year Even in the midst of runaway economic inequality and dangerous social division it remains an axiom of modern life that meritocracy reigns supreme and promises to open opportunity to all The idea that reward should follow ability and effort is so entrenched in our psyche that even as society divides itself at almost every turn all sides can be heard repeating meritocratic notions Meritocracy cuts to the heart of who we think we are But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that The Meritocracy Trap prosecutes with rare force comprehensive research and devastating persuasion Daniel Markovits a law professor trained in philosophy and economics is better placed than most to puncture one of the dominant ideas of our age Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within as well as how we can take the first steps towards a world that might afford us both prosperity and dignity

**2020 the Campaign Chronicles** JD Foster, 2021-02-17 The 2020 campaign began with the 2016 election of Donald J Trump and effectively rendered a verdict on his presidency The Democratic Party sifted through a small army of worthies to defeat Trump and in former Vice President Joe Biden they found their champion Biden claimed the nomination following a phoenix like rise propelled by a miraculous South Carolina primary victory Backed by the party establishment and the mainstream media Biden's weak campaign proved sufficient by a handful of votes in a handful of states and leaving Biden with little mandate other than to avoid being like Trump The story of the 2020 election is in part a story of America and the Trump presidency a stormy marriage of highs and lows shaped by contrived investigations into Russian government interference a failed impeachment a welcomed intolerance for sexual harassment the exposure of deep racial divisions highlighted by widespread and often violent rioting accompanied by a re-examination of the role of the police a strong economy until crushed by the coronavirus pandemic and then the pandemic tragedy itself The Trump presidency's four years astounded for better or for worse depending on point of view This book chronicles the 2020 election and thus the events that

shaped the election over the course of four years written contemporaneously to capture the flavor of the moment praising and criticizing Trump and his many antagonists in equal measure Those enamored of the former president will find succor and outrage as will those who delighted in his defeat Those seeking to understand what happened will find the reading interesting infuriating and perhaps in places illuminating

**Ten Lessons for a Post-Pandemic World** Fareed Zakaria, 2020-10-06 From the international bestselling author of *The Post American World* An intelligent learned and judicious guide for a world already in the making *The New York Times* Since the end of the Cold War the world has been shaken to its core three times 11 September 2001 the financial collapse of 2008 and most of all Covid 19 Each was an asymmetric threat set in motion by something seemingly small and different from anything the world had experienced before Lenin is supposed to have said There are decades when nothing happens and weeks when decades happen This is one of those times when history has sped up In this urgent and timely book Fareed Zakaria one of the top ten global thinkers of the last decade *Foreign Policy* foresees the nature of a post pandemic world the political social technological and economic consequences that may take years to unfold In ten surprising hopeful lessons he writes about the acceleration of natural and biological risks the obsolescence of the old political categories of right and left the rise of digital life the future of globalization and an emerging world order split between the United States and China He invites us to think about how we are truly social animals with community embedded in our nature and above all the degree to which nothing is written the future is truly in our own hands *Ten Lessons for a Post Pandemic World* speaks to past present and future and will become an enduring reflection on life in the early twenty first century
