[Dual Language Education: Teaching and Leading in Two Languages](#) David E. DeMatthews, Elena Izquierdo, 2019-05-13

This book provides a comprehensive and interdisciplinary examination of dual language education for Latina o English language learners ELLs in the United States with a particular focus on the state of Texas and the U S Mexico border. The book is broken into three parts. Part I examines how Latina o ELLs have been historically underserved in public schools and how this has contributed to numerous educational inequities. Part II examines bilingualism, biliteracy, and dual language education as an effective model for addressing the inequities identified in Part I. Part III examines research on dual language education in a large urban school district, a high performing elementary school that serves a high proportion of ELLs along the Texas Mexico border, and best practices for principals and teachers. This volume explores the potential and realities of dual language education from a historical and social justice lens. Most importantly, the book shows how successful programs and schools need to address and align many related aspects in order to best serve emergent bilingual Latino as

from preparing teachers and administrators to understanding assessment and the impacts of financial inequities on bilingual learners. Peter Sayer, The Ohio State University USA. *Professional Guidelines for Christian English Teachers* Kitty Purgason, 2016-09-30. This handbook is for people in the field of English language teaching who are looking for practical ways to be both committed followers of Jesus and ethical TESOL professionals. What do such teachers actually do in the classroom? What materials do they use? How do they relate to their students and colleagues in and outside the classroom? How can they treat students as whole people with spiritual and religious identities? How can they set a high bar for ethical teaching? Professional Guidelines for Christian English Teachers has grown out of Kitty Purgason's experience as a Christian seeking to follow the Great Commandment and the Great Commission as a practitioner with a deep concern for excellence and integrity and as a teacher trainer with experience in many parts of the world.

Digital Teaching and Learning: Perspectives for English Language

Education Christiane Lütge, Thorsten Merse, 2021-03-29 The ongoing digitalization of social environments and personal lifeworlds has made it crucial to pinpoint the possibilities of digital teaching and learning also in the context of English language education. This book offers university students, trainee teachers, in-service teachers and teacher educators an in-depth exploration of the intricate relationship between English language education and digital teaching and learning. Located at the intersection of research theory and teaching practice, it thoroughly legitimizes the use of digital media in English language education and provides concrete scenarios for their competence-oriented and task-based classroom use.

Advances in Technological Innovations in Higher Education Adarsh Garg, B V Babu, Valentina E Balas, 2024-03-29 The evolution of technology in education can no longer be comprehended simply by looking at the use of computers and networks. Technology is not just a supplementary tool to the conventional method of education. Education has to undergo a complete transformation with technological innovations for the sustainability of quality education as a system and not in silos. Sustainability in education also necessitates a more workable strategy to realize socially viable educational policies and practices which can focus more on personalized learning. Due to various factors like emerging technologies changing needs of the learners, policy reforms for enhancing employability and emphasis on uninterrupted education as in the case of the pandemic scenario of COVID 19, there is a need to steer a major transition in the education system. The education system has to be real and proficient for it to be instrumental to nurture an informed and knowledgeable society. This book on technological innovations in higher education is organized largely based on the diversity of higher education ecosystems that are supported by technological innovations. Various author viewpoints give insights into the full potential of technology as well as its risks in interrelated areas of higher education to work towards sustainability of value-based quality education across the globe.

Engaging with Linguistic Diversity David Little, Déirdre Kirwan, 2019-06-13 Engaging with Linguistic Diversity describes an innovative and highly successful approach to inclusive plurilingual education at primary level. The approach was developed by Scoil Bhr de Cailín Blanchardstown as a way of converting extreme linguistic diversity more than 50 home languages in a school of 320 pupils into educational capital. The central feature of the approach is the inclusion of home languages in classroom communication. After describing the national context, the book traces the development of Scoil Bhr de Cailín's approach and explores in detail its impact on classroom discourse, pupils' plurilingual literacy development and their capacity for autonomous learning. The authors illustrate their arguments with a wealth of practical evidence drawn from a variety of sources: pupils' and teachers' voices are especially prominent. The concluding chapter considers issues of sustainability and replication and the implications of the approach for teacher education. The book refers to a wide range of relevant research findings and theories, including translanguaging, plurilingual and intercultural education, language awareness and language learner autonomy. It is essential reading for researchers and policy makers in the field of linguistically inclusive education.
