Hawkins, Kenneth A. Merchant, 2011 Accounting Text and Cases is a product of lifelong dedication to the discipline of accounting. Covering both financial and managerial accounting as well as broader managerial issues, the book incorporates a breadth of experience that is sure to enrich your course and your students. The 109 cases that make up most of the end-of-chapter material are a combination of classic Harvard-style cases and extended problems, with 12 complete new cases added to the thirteenth edition. **Book Jacket** *Analyzing Security, Trust, and Crime in the Digital World* Nemati, Hamid R., 2013-12-31 In the digital era, information is the most valuable resource, and protecting one's assets is a constant struggle for both individuals and organizations. *Analyzing Security, Trust, and Crime in the Digital World* explores techniques and technologies used to secure data and prevent intrusion in virtual environments. Within these pages, computer scientists, programmers, engineers, and practitioners will find meaningful research on intrusion detection and authentication techniques in order to further defend their own systems and protect the information therein. **Teaching IFRS** Richard M.S. Wilson, Ralph W. Adler, 2013-09-13 The increasing pace of global conformance towards the adoption of International Financial Reporting Standards (IFRS) highlights the need for accounting students as well as accounting practitioners to be conversant with IFRS. *Teaching IFRS* offers expert descriptions of and insights into the IFRS convergence process from a teaching and learning perspective. Hence, this book is both timely and likely to have considerable impact in providing guidance for those who teach financial reporting around the world. The contents of the book come from authoritative sources and offer something distinctive to complement the existing textbooks which typically focus on the technical aspects of IFRS and their adoption. Drawing upon the experiences of those who have sought to introduce IFRS-related classroom innovations and the associated student outcomes achieved therefrom, the book offers suggestions about how to design and deliver courses dealing with IFRS and catalogues extensive listings of IFRS-related teaching resources to support those courses. This book was originally published as a special issue of *Accounting Education*, an international journal. **Accounting, Text and**
