Once you have your gear in hand, Joe shows you how to convert your paper documents to digitized files and gives you ideas for how to organize your office workflow, explaining how to develop day to day techniques that reduce the amount of time you spend pressing buttons launching software and managing documents. What's a book scanner? What if I need a mobile portable scanner? What does TWAIN stand for and should my scanner support it? Why do I need OCR software and what features should I look for? How do I choose a good scanner and OCR software? How should I name and file my digitized documents? What are my options if I need to edit a scanned PDF? How can I automate my workflow for scanning documents? What paper documents should I keep in physical form? How do I use common tools to add a signature to a PDF?
