that has a legacy of misrepresentation and erasure. This collection draws on fifty interdisciplinary contributions written by some of the leading Latine theatre and performance scholars and practitioners in the United States to highlight evolving and recurring strategies of world making activism and resistance taken by Latine culture makers to gain political agency on and off the stage. The project reveals the continued growth of Latine theatre and performance through chapters covering but not limited to playwriting, casting practices, representation, training, wrestling with anti-Blackness and anti-Indigeneity, theatre for young audiences, community empowerment and the market forces that govern the US theatre industry. This book enters conversations in performance studies, ethnic studies, American studies and Latina/o/x studies by taking up performance scholar Diana Taylor's call to consider the ways that embodied and performed acts generate, record and transmit knowledge. This collection is an essential resource for students, scholars and theatremakers seeking to explore, understand and advance the huge range and significance of Latine performance.
