

CYBER SAFETY TIPS

"Hoaxes use weaknesses in human behavior to ensure they are replicated and distributed. In other words, hoaxes prey on the Human Operating System." – Stewart Kirkpatrick

Don't delete harmful communications (emails, chat logs, posts etc). These may help provide vital information about the identity of the person behind these

Remember that all other internet users are strangers. You do not know who you are chatting with

Be extremely careful about how you share personal information about yourself online.

Be extremely cautious about meeting online acquaintances in person. If you choose to meet, do so in a public place and take along a friend.

Save all communications for evidence. Do not delete or alter them in any way.

Be aware of all e-mails and SMS from any stranger luring you with billion dollar lottery prize, jobs in UK and huge wealth.

Be sure that your WIFI Network secured, use a strong password

Never share your passwords with anyone. Change the password frequently using a combination of letters, numerical and special characters.

Never reveal your personal information to any stranger in online chatting.

Never forget to sign out of your email or any other accounts.

Never make online transactions in unsecured sites. Watch for 'https' in the address bar.

Never follow links to your banking website from another website or e-mail, type it yourself in the address bar.

Never open spam mails as they contain either virus or spyware. Enable spam filters in your mail boxes

Never be greedy for free downloads. They might infect your computers.

Never visit sites that contain pornography or terror links.

Never let credit cards go out of your sight while paying.
