Rogers,2011-12-23 In The End of Negotiable Instruments Bringing Payment Systems Law Out of the Past author James Rogers challenges the basic assumptions of the law of checks and notes and its history and provides a well reasoned account of how the law could be changed to better suit the evolution of new payment technologies The modern American law of payment systems is in disarray Efforts to create a unified body of law for payment systems have so far been unsuccessful Part of the reason for that failure is the assumption that the existing law works well for the traditional paper based check system and that problems have been created only by the evolution of new technologies The End of Negotiable Instruments argues that this assumption is unfounded The basic law of checks is itself anachronistic There are no other books that undertake a similar analysis there are legal treatises on the law of checks and notes but all of them take for granted the basic assumptions challenged in this book Several articles were published in the late twentieth century concerning the dispute over the application of certain doctrines of traditional negotiable instruments law to modern consumer finance transactions but none of this literature went on to consider the broader question of whether there is anything worthwhile left in negotiable instruments law

**Problems and Materials on Payment Law** Douglas J. Whaley,Stephen M. McJohn,2012 Through clear concise writing and a problem based pedagogy this notably student friendly Whaley book helps students to understand the statutory language of the Uniform Commercial Code the Electronic Fund Transfer Act and the Expedited Funds Availability Act Problems and Materials on Payment Law now in its Eighth Edition features the black letter law of payment systems in clear and straightforward writing a logical and adaptable organization that follows the order of UCC Articles 3 4 4A and 8 a problems based pedagogy a practical and expedient way to teach payment law a manageable length at 416 pages significant Supreme Court cases New to the Eighth Edition recent major cases involving check alteration statutory revisions that reflect a new Federal Reserve regulation allowing banks to return telemarketing checks to the depositary bank A master at helping students to penetrate the sometimes opaque language of statutory law Douglas J Whaley is the name that you trust to bring you concise student friendly problem based casebooks **Payment Systems** Ronald J. Mann,2014-01 Payment Systems The Essentials is part Aspen s new Essentials Series which takes a forest rather than the trees approach to teaching This concise paperback concentrates on the fundamentals of payment systems and uses a relaxed personal style to explain them Suitable for use with any casebook this text will help students recognize and understand common themes and precipitate understanding of the topics under discussion Written by Ronald Mann a renowned scholar in commercial law and electronic commerce this superior text features an engaging style and is well written direct and concise splits the book into two parts consumer payment systems and large dollar commercial payment systems for easier reference provides a general overview of payment systems that combines a practical explanation of the systems with a discussion of the policy issues they present for regulators Payment Systems The Essentials can be a valuable resource for your students regardless of which casebook you use in your classroom Exam a copy today and you will immediately see why you can

confidently recommend this outstanding study aid to your students      Payment Systems in the Financial Markets Marco Rossi,1998      Problems and Cases on Secured Transactions James Brook,2016 When you purchase a new version of this casebook from the LIFT Program you receive 1 year FREE digital access to the corresponding Examples Explanations in your course area Now available in an interactive study center Examples Explanations offer hypothetical questions complemented by detailed explanations that allow you to test your knowledge of the topics covered in class Starting July 1 2017 if your new casebook purchase does not come with an access code on the inside cover of the book please contact Wolters Kluwer customer service The email address and phone number for customer service are on the copyright page found within the first few pages of your casebook The problem approach featured in Problems and Cases on Secured Transactions thoroughly engages students with imaginative scenarios presenting the material as easily accessible and as manageable as possible without avoiding the intricacies of secured transactions Students come to appreciate that the principal resource for the course is UCC Article 9 itself While the casebook is an essential tool for study the law is found in the Code Problems and Cases on Secured Transactions is carefully designed for an introductory mainstream course not for an advanced course or seminar The material is presented as completely comprehensible even enjoyable rather than an arcane science that only an insider can be expected to understand Cases are heavily edited and liberal editorial notes help express the vibrancy of true life situations A good mix of short and long problems gives each lesson a comprehensive linear flow while keeping students focused A progressive mix of problems helps students see the common elements as rules and principals learned in a simpler setting can readily be applied to more complex transactions Earlier problems lean more heavily though not exclusively on the individual and consumer borrower situations As the lessons advance the mix of materials progressively includes more small business and large business transactions Key Features of the New Edition The latest on the 2010 Revisions to Article 9 in particular how the name of the debtor problem is now to be dealt with New legislative initiatives addressing the problem of so called bogus or harassing filings Twelve new principal cases decided since 2010 bring the book up to date and better elucidate points to be made      *Looseleaf Legal Negotiation* Korobkin,      **Payment Systems** Linda J. Rusch,2011 In the fourth edition the organization of this book has been revised and includes expanded coverage of new payment mechanisms In addition each chapter has been extensively revised with additional textual material and updated problems The book contains problems designed to help the novice learner focus on important statutory and policy issues Topics include Check 21 and the revised Regulations CC and J as well as the provisions in Regulation E
