Micro-Entrepreneurship

For Dummies Paul Mladjenovic, 2013-04-03 Tired of the 9 to 5 grind and want a way to earn or to supplement your income? Easy. The media has named the growing trend toward micro entrepreneurship the Rise of the Creative Class, the Gig Life or the freelance economy. All of those refer to the nearly 4 million workers who were self employed this past year and millions of others who currently supplement their income with freelance work. While the trend has been spotted before, there's one stark difference between micro entrepreneurs today and the Free Agent Nation citizens of the late 90s technology. Micro Entrepreneurship For Dummies shows you how to navigate this confusing technological landscape in order to make a contributable profit. Micro Entrepreneurship For Dummies aids you in making the best use of micro entrepreneurial platforms with helpful advice that includes information on signing up for and selling products on websites such as Airbnb, Craigslist, Taskrabbit, Uber and Etsy. Micro enterprise using online platforms to sell products or services is a proven way to earn extra money and supplement household income. In today's struggling economy, the importance of self run businesses and small enterprise is growing as more people take lower paying jobs and need a little extra spending money. Shows you how to sign up for and sell products online. Micro Entrepreneurship For Dummies appeals to anyone looking to earn or supplement their income from home.
