

A close-up photograph of two blue and yellow macaws perched on a thick, brown tree branch. The macaw in the foreground is facing right, with its head slightly turned towards the other bird. The second macaw is positioned behind it, also facing right. Both birds have vibrant blue feathers on their heads, backs, and wings, and bright yellow feathers on their chests and bellies. They have dark, hooked beaks and a distinctive pattern of dark feathers around their eyes. The background is a soft-focus green, suggesting a tropical forest environment.
