Uber Act Practice Compare:

Practices of Comparing Angelika Epple, Walter Erhart, Johannes Grave, 2020-06-22 Practices of comparing shape how we perceive organize and change the world. Supposedly innocent practices of comparing play a decisive role in forming categories boundaries and hierarchies but they can also give an impetus to question and change such structures. Like almost no other human practice comparing pervades all social political economic and cultural spheres. This volume outlines the program of a new research agenda that places comparative practices at the center of an interdisciplinary exploration. Its contributions combine case studies with overarching systematic considerations. They show what insights can be gained and which further questions arise when one makes a seemingly trivial practice comparing the subject of in depth research.

Succession Upon Death: A Comparison of European and Turkish Private International Law Biset Sena Günes, 2023-09-04 The European Succession Regulation which harmonized private international and procedural law rules of Member States in the field of succession has been examined by scholars in almost every detail. It has however not attracted the same degree of attention from a third state perspective. The aim of this book is to offer a comparative analysis of the Regulations regime from a Turkish perspective. Turkey is indeed an important third state for cross border succession cases for the EU having a great number of nationals within the European Union and being one of the third countries which have bilateral treaties on succession with the Member States which are still applicable according to Article 75 of the Regulation. Biset Sena Günes addresses the differences between the provisions of the Regulation the Turkish PILA and the Turkish German Treaty of 1929 the most practically relevant one of the treaties with third states and indicates the interplay between the three legal texts

The Max Planck Handbooks in European Public Law Armin von Bogdandy, Huber Peter M., Christoph Grabenwarter, 2023-04-13 The Max Planck Handbooks in European Public Law series describes and analyzes the public law of the European legal space an area that encompasses not only the law of the European Union but also the European Convention on Human Rights and importantly the domestic public laws of European states. Recognizing that the ongoing vertical and horizontal processes of European integration render legal comparison the task of our time for both scholars and practitioners the project aims to foster a better understanding of the
