**Music Streaming around the World** David Hesmondhalgh, 2025-10-21 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. Music streaming platforms such as Spotify, Apple Music, YouTube, and those offered by Chinese web giant Tencent are now central to everyday musical activity across much of the world with enormous ramifications for musical culture in modern societies. Bringing together case studies from twelve countries, *Music Streaming around the World* provides the first international account of how streaming is shaping music culture today by considering the implications of streaming platforms for the production, distribution, and consumption of recorded music around the globe.

**Watching TV** Harry Castleman, Walter J. Podrazik, 2024-12-16 Castleman and Podrazik present a season-by-season narrative that encompasses the eras of American television from the beginning in broadcast through cable and now streaming. They deftly navigate the dizzying array of contemporary choices so that no matter where you start on the media timeline, *Watching TV* provides the context and background to this multi-billion-dollar enterprise. Drawing on decades of research, the authors weave together personalities, popular shows, corporate strategies, historical events, and changing technologies, enhancing the main commentary with additional elements that include fall prime-time schedule grids for every season, date box timelines, highlighted key text, and selected photos. Full of facts, firsts, insights, and exploits from now back to the earliest days, *Watching TV* is the standard chronology of American television, and reading it is akin to channel surfing through history. The fourth edition updates the story into the 2020s and looks ahead to the next waves of change. This new edition is the first to also be available in a digital format.

**Social Media in the Fashion Industry** Patricia SanMiguel, Tekila Harley Nobile, Cristina Sánchez-Blanco, Nadzeya Sabatini, 2024-10-07 This book introduces social network fundamentals in the fashion domain. It addresses the creation of social media marketing plans, highlighting strategic approaches that allow fashion brands to differentiate themselves in the ephemeral and challenging fashion context. Through a variety of academic and professional sources and by sharing the results of their own research, the authors present research methodologies including netnography, visual sentiment, and argumentation analysis for developing rigorous studies to gain social media insights that can be useful for decision making and value creation. The book also discusses future trends regarding social media management in the fashion domain via interviews with senior fashion experts. This cutting-edge book that combines theory and practice will appeal to undergraduate and master students across a broad range of fields, including

fashion studies marketing digital marketing and communication and to young professionals who are starting to work in social media In addition this book is also developed for young researchers and PhD students employing social media analysis in their studies   **Digit** ,2007   *Arterial Treatment of Neurological Diseases* Shailendra Joshi,2025-05-06 Drug delivery by injecting them through arteries poses unique challenges The first attempts to treat malignant brain tumors by arterial injections were undertaken soon after World War II Yet the applications of arterial delivery in treating neurological diseases have not advanced significantly over the last seventy years Although arterial drug delivery is used to treat several neurological conditions its applications other than for localization of brain functions remain experimental and are unproven in robust scientific studies Over the last two decades interventional radiology has significantly advanced by developing catheter based devices but arterial drug development has largely been ignored This book makes the case for arterial drug development Unless drugs are developed explicitly for arterial injections the vast potential of arterial treatments of neurological diseases will remain untapped This multi author book brings together experienced researchers and clinicians to investigate various applications of arterial drug delivery for treating neurological diseases It s an essential resource for various medical subspecialties related to the field and to advance pharmacological and clinical research with this mode of drug delivery   **Infectious Diseases of Livestock with Special Reference to Southern Africa** J.
