Disney Plus This Week:

The Disney+ Kingdom David Whitt, John Perlich, 2024-05-08 Debuting in 2019 Disney quickly became one of the most popular streaming services worldwide. With hubs for Disney Pixar, Marvel, Star Wars and National Geographic Disney not only provides vault content from these brands but also original films and television programming such as High School Musical, The Musical, The Series, The Mandalorian, The Mighty Ducks, Game Changers, Andor and The Imagineering Story. This collection of essays examines a variety of Disney exclusive content exploring themes such as nostalgia, identity, representation and lived experience. Designed to appeal to both academics and the average Disney fan, it attempts to answer the question of whether its original streaming content is a plus or minus for the Mouse House.

Cinematic Digital Television Chris Comerford, 2022-12-20 Chris Comerford explores cinematic digital television as an artistic classification and an academic object of study and illuminates the slippage in definitions of previously understood media forms. The growth of television as an artistic informative medium has given rise to shifts in the aesthetic style of the programmes we watch and this book outlines these shifts along with the contemporary debates and critical theory surrounding them. Comerford looks at the forms and aesthetics of television, the production standards influencing streaming television and the agency of audiences and provides case studies of key TV shows illustrating these shifts including Twin Peaks, The Return, WandaVision, Hacks and Russian Doll. Navigating the levels of production and reception in cinematic digital television, the book uses film inspired TV as a lightning rod for understanding our narrative screen media landscape and the classifications we use to negotiate it. As an essential reading for both scholars and students of media and television studies, this book provides a much-needed consideration of the changing landscape of television.
