Payment Of A Constable In Saps:

Recovering Police Legitimacy Rafe McGregor, 2024-07-11 Transatlantic policing is experiencing an unprecedented crisis of legitimacy epitomised by public responses to the murders of George Floyd and Sarah Everard during the COVID 19 pandemic Legitimacy is lost when the police either fail to protect the public or rely on coercion rather than consent to achieve that protection Recovering Police Legitimacy challenges conventional criminological political and public solutions to the problem by approaching it from the bottom up beginning with policing as a practice constituted by a unique set of excellences skills and characteristics The author draws on his experience as a police officer and on the serial fictions of James Ellroy David Peace and Nic Pizzolatto to characterise the practice in terms of heroic struggle edgework absolute sacrifice and worldmaking These characteristics provide an analytic tool for revolutionising our understanding of the relations among policing as a situated practice public protection and police legitimacy and for identifying the different levels at which legitimacy is undermined His conclusion is that recovery is possible but will be slow in pace and incomplete in scope Written accessibly for students police officers policymakers scholars and anyone with an interest in police legitimacy this is a groundbreaking study of a pressing social problem

Police in Africa Jan Beek, Mirco Göpfert, Olly Owen, Johnny Steinberg, 2017-08-15 Often overlooked by journalists and scholars the police forces of the African continents are a significant and little studied phenomenon This book seeks to redress that lacuna The studies span the continent from South Africa to Sierra Leone keeping a strong ethnographic focus on police officers and their work

The Law of South Africa, 2003

Police Work and Identity Andrew Faull, 2017-09-07 This is a book about the men and women who police contemporary South Africa Drawing on rich original ethnographical data it considers how officers make sense of their jobs and how they find meaning in their duties It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo liberalising regimes such as South Africa can be traced to the day to day experiences and ambitions of the average police officer It is about the stories they tell themselves about

themselves and their social worlds and how these shape the order they produce through their work By focusing on police officers this book positions the individual in primacy over the organisation asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street

Public Service Labour Relations in a Democratic South Africa Glenn Adler,2000 The democratic South Africa boasts some of the most advanced labour legislation in the world allowing public service workers to enjoy trade union and collective bargaining rights for the first time in the country s history These developments set the stage for public servants to bring their conditions of service into line with the industrial relations best practice in the private sector The chapters in this volume are based on critical assessments of contemporary developments in the public service drawn from original research by a range of contributors including public servants academics and independent researchers all specialists in this field The problem of addressing workers demands and concerns about job security transforming the state into a more effective agent of development and redressing the legacies of discrimination and authoritarianism is likely to generate considerable conflict between workers and managers and between different groups of workers made international headlines in August 1999 demonstrated that labour management strife in the public service is not a narrow industrial relations issue of interest to the parties alone The outcomes of these conflicts will have crucial and long lasting consequences for the transformation of the state as an institution and therefore for the governments s ability to promote fiscal integrity economic development and service delivery The contributions thus combine depth of research and critical appraisal with privileged insight into recent policy developments
