Best Practices in Sustainable Built Environments Jessica Siva, Josephine Vaughan, Saurabh Verma, Priyanka Kochhar, 2025-11-01 This handbook offers a comprehensive guide for built environment students, educators, and practitioners interested in integrating sustainable solutions into their projects. With climate change posing a global emergency, this handbook provides a timely guidance and inspiration, showcasing practical information and case studies from two distinct geographical locations: India and Australia. This handbook also presents innovative approaches for teaching and learning about sustainable built environment practices, highlighting engaging teaching methods used in both India and Australia to equip future sustainability leaders with the necessary skills and knowledge to address the climate emergency. It also showcases detailed case studies demonstrating best practices in sustainable built environments with practical suggestions for implementation and scalability. Additionally, the handbook discusses the role of policy and governance as an enabler for climate change mitigation and sustainable transitions in both India and Australia. The book is a valuable reference for built environment students, educators, in sustainable design and construction practitioners, in architecture, engineering, and construction policymakers, and government officials involved in urban planning and sustainability, and professionals seeking to enhance their understanding of sustainable practices in the built environment.

Handbook of Research on

Developing Competencies for Pre-Health Professional Students, Advisors, and Programs Ganjoo, Rohini, Schwartz, Lisa S., 2022-05-27 Today there is a significant need for healthcare professionals across disciplines and sectors as the world faces unprecedented health challenges and adopts innovative healthcare technologies. Despite this demand for a competent and eager healthcare workforce, the education and processes to becoming a qualified healthcare professional are complex and intricate, which may turn people away from this path due to confusion, fear, or doubt. In order to encourage and support those involved in medical education, further study on the best practices and challenges of developing confident and capable healthcare professionals is required. The Handbook of Research on Developing Competencies for Pre-Health Professional Students, Advisors, and Programs provides insight into the critical skills and expertise essential for those interested in pursuing employment in healthcare, as well as current procedures and training to support them during their academic and professional careers. Covering topics such as lifelong learning skills, healthcare professions, and strategic learning, this major reference work is crucial for advisors, nurses, healthcare professionals, academicians, researchers, practitioners, scholars, instructors, and students.

Creating Life-Long Learners Todd Stanley, 2015-07-30 Wanted for the global workforce thinkers and those who can teach them. Where K-12 instruction once centered on content and memorization, today's educators want most of all to teach their students to think critically and perceptively. What better way than with project-based learning? PBL Author Todd Stanley provides a teacher friendly, step-by-step approach to implementing PBL, showing readers how to use project and classroom management skills to create a positive, productive learning environment. Develop

curriculum around ten different project types Link projects with today's standards Teach students how to effectively collaborate and bring out the best in each other **Learning and Not Learning in the Heritage Language Classroom** Kimberly Adilia Helmer, 2020-02-13 Learning and Not Learning in the Heritage Language Classroom a critical ethnography describes the first year of a teacher founded charter high school and presents a case study of compulsory Spanish heritage language instruction with two Spanish language teachers one English dominant and the other Spanish dominant The study follows the same cohort of Mexican origin students to their humanities English class bringing into focus what works and what does not with this group of learners Unlike many Spanish heritage language studies the students in this book did not choose to take part in Spanish class and thus provide unusually raw feedback on their teachers and classes The engagement and resistance of these students suggests pedagogical directions for engaging Spanish heritage language learners The book will be of interest to scholars administrators students and teachers involved in the delivery and assessment of heritage language classes
