**Lawfare** Jaume Castan Pinos, Mark Friis Hau, 2022-09-19 This book develops a new conceptualisation of lawfare that recognises the polysemantic nature of the term Drawing on theoretical developments from legal anthropology international relations and social theory the book scrutinises the multiple dimensions of this phenomenon It illustrates the multifaceted character of lawfare with a wide range of historical and contemporary cases from across the globe and analyses the implications of actors pursuing political objectives through legal means This includes the use of lawfare by states as a legal instrument to accomplish geopolitical objectives domestic lawfare or the use of legal instruments to undermine internal opposition and state lawfare used by governments to protect the state from internal territorial secessionist challenges Finally the book shows that lawfare is not exclusively a tool for hegemonic actors as it can also be used by civil society actors that aim to uphold their rights through legal instruments in asymmetric lawfare This book contributes to new developments in lawfare without shying away from controversy acknowledging its sometimes brutal efficacy as well as its potential pitfalls The book will appeal to scholars and students of law international relations political science anthropology and sociology

Campbell, Stephanie Wellman, 2023-12-19 *Justice Indigenous Peoples and Canada A History of Courage and Resilience* brings together the work of a number of leading researchers to provide a broad overview of criminal justice issues that Indigenous people in Canada have faced historically and continue to face today Both Indigenous and Canadian scholars situate current issues of justice for Indigenous peoples broadly defined within the context of historical realities and ongoing developments By examining how justice is defined both from within Indigenous communities and outside of them this volume examines the force of Constitutional reform and subsequent case law on Indigenous rights historically and in contemporary contexts It then expands the discussion to include theoretical considerations particularly settler colonialism that help explain how ongoing oppressive and assimilationist agendas continue to affect how so called justice is administered From a critical perspective the book examines the operation of the criminal justice system through bail specialized courts policing sentencing incarceration and release It explores legal frameworks as well as current issues that have significantly affected Indigenous peoples such as the Truth and Reconciliation Commission the Inquiry into Missing and Murdered Indigenous Women and Girls human rights resurgence and identity This unique collection of perspectives exposes the disconcerting agenda of historical and modern day Canadian federal government policy and the continued denial of Indigenous rights to self determination It is essential reading for those interested in the struggles of the Indigenous peoples in Canada as well as anyone studying race crime and justice *Labour History*, 2006 **Beyond Shelter after Disaster: Practice, Process and Possibilities** David Sanderson, Jeni Burnell, 2013-09-13 Providing shelter after a disaster is recognised as one of the most complex areas of humanitarian relief and recovery Some aid agencies have

stopped providing shelter altogether after bad experiences while those that do quickly become engaged in challenges that go far beyond the provision of structures alone Yet with the number and severity of disasters set to increase due to climate change and rapid urban growth the need for approaches that work has never been greater This book explores the issues in three parts The first Practice looks at lessons from past efforts Part two Process proposes practical and effective people centred approaches Part three considers currently neglected issues such as disability human rights and urban oriented approaches Through practical case studies and academic research Beyond Shelter after Disaster critiques past methods and explores future options for improving practice in one of the most complex areas of post disaster relief and recovery This book was originally published as a special issue in Environmental Hazards Human and Policy Dimensions

**Child Soldiers and Restorative Justice** Jean Chrysostome K. Kiyala, 2018-07-18 This book investigates how while children used as soldiers are primarily perceived as victims of offences against international law they also commit war atrocities In the aftermath of armed conflict the mainstream justice system targets warlords internationally armed groups and militias commanders who abduct and enrol children as combatants leaving child perpetrators not being held accountable for their alleged gross human rights violations Attempts to prosecute child soldiers through the mainstream justice system have resulted in child rights abuses Where no accountability measures have been taken demobilised young soldiers have experienced rejection and eventually some have returned to soldiering This research provides evidence of the potential of restorative justice peacemaking circles and locally based jurisprudence specifically the Baraza to hold former child soldiers accountable and facilitate their reintegration into society *International Journal of Comparative and Applied Criminal Justice* ,2016 *Journal of Information Science* ,2004 *Public Finance* Harvey S. world the largest ever youth group in history the report says there has never been a better time to invest in youth because they are healthier and better educated than previous generations and they will join the workforce with fewer dependents because of changing demographics The report says that young people make up nearly half of the ranks of the world's unemployed and as for example in the Middle East and North Africa region must create 100 million jobs by 2020 in order to stabilize its employment situation Moreover surveys of young people in East Asia and Eastern Europe and Central Asia carried out as research for the report indicate that access to jobs along with physical security is their biggest concern Far too many young people some 130 million 15-24 year olds cannot read or write Secondary education and skill acquisition make sense only if primary schooling has been successful This is still far from being the case and efforts have to be reinforced in this area In addition more than 20 percent of firms in countries such as Algeria Bangladesh Brazil China Estonia and Zambia rate poor education and work skills among their workforce Overcoming this handicap starts with more and better investments in youth The report highlights three areas to promote better investment in the future expanding opportunities enhancing capabilities and providing second chances Expanding opportunities focuses on increasing the quality of education smoothing the transition to work and providing young people with a platform for civic engagement Enhancing capabilities involves making young people aware of the consequences of their actions especially consequences that will affect them much later in life as well as building their decision making skills and giving them the right incentives Providing second chances calls for helping young people recover from missed opportunities through remedial education retraining treatment and rehabilitation
