## **How Everyday Forms of Racial Categorization Survived Imperialist Censuses in Puerto Rico** Rebecca Jean Emigh,Patricia Ahmed,Dylan Riley,2021-09-29

This book examines the history of racial classifications in Puerto Rico censuses starting with the Spanish censuses and continuing through the US ones Because Puerto Rican censuses were collected regularly over hundreds of years they are fascinating test cases to see what census categories might have been available and effective in shaping everyday ones Published twentieth century censuses have been well studied but this book also examines unpublished documents in previous centuries to understand the historical precursors of contemporary ones State centered theories hypothesize that censuses especially colonial ones have powerful transformative effects In contrast this book shows that such transformations are affected by the power and interests of social actors not the strength of the state Thus despite hundreds

of years of exposure to the official dichotomous and trichotomous census categories these categories never replaced the continuous everyday ones because the census categories rarely coincided with Puerto Rican s interests **Recording Leisure Lives** Helen Pussard,2009 *Information History in the Modern World* Toni Weller,2010-12-09 Information has a rich but under explored history The information age of the late twentieth century witnessed the emergence of a new history of information and in this timely collection of essays a team of international scholars from a variety of disciplines examines the changing understandings of information in the modern world Situating the concept of information in varying historical contexts since the eighteenth century Information History in the Modern World Histories of the Information Age Explores how this historical research can challenge our perceptions of the information age in the global twenty first century Discusses ephemera wars imagery empire identification and the transience of history in the digital era Argues that the changing uses perceptions and manifestations of information helped to shape the world we know today Authoritative and approachable this is an invaluable resource for anyone who is interested in how and why information has become a distinguishing feature of the modern world *Caring for the Vulnerable: Perspectives in Nursing Theory, Practice, and Research* Mary de Chesnay,Barbara A.
