Soldiers of Democracy? Sharan Grewal, 2023-07-04 Why do some militaries support and others thwart transitions to democracy After the Arab Spring revolutions why did Egypt's military stage a coup to end the transition Conversely why did Tunisia's military initially support the transition only to later facilitate the elected president's dismantling of democracy In **Soldiers of Democracy Military Legacies and the Arab Spring** Sharan Grewal argues that a military's behavior under democracy is shaped by how it had been treated under autocracy Autocrats who had empowered their militaries produce soldiers who will repress protests and stage coups to preserve their privileges Meanwhile autocrats who had marginalized their militaries produce soldiers who support democratization but who are also more susceptible to incumbent takeovers and civil wars The dictator's choice to either empower or marginalize the military thus creates legacies that shape both the likelihood of democratization and the forms by which it breaks down Drawing on over 140 interviews with civilian and military leaders and three surveys of military personnel this scholarly volume illustrates this theory through detailed case studies of Egypt and Tunisia Grewal also probes the generalizability of the theory through a cross national analysis of all countries between 1946-2010 Overall he brings the military front and center to the study of democratic transition and consolidation

The Contemporary Islamic Governed State Joseph J. Kaminski, 2017-08-21 This book offers a normative reconceptualization of a modern Islamic governed state First Joseph Kaminski surveys the historical context of the trajectory of Islamic thought and offers a unique discursive framework for reconceptualizing an Islamic governed state that rejects secular Enlightenment liberalism and instead is heavily grounded in Ancient Greek ideals of politics and political leadership Despite heavily borrowing from Greek thought the model offered remains firmly rooted in a Shari'ah based discursive ontological framework The volume explores topics of bureaucracy law democracy women in politics

and economic justice Further this volume presents case studies from Turkey Egypt Tunisia and Malaysia and utilizes the presented theoretical framework as a lens for analysis *Neo-traditionalism in Islam in the West* Walaa Quisay,2023-06-15 Examining Muslim neo traditionalist scholars in the West and their community of young seekers of sacred knowledge Walaa Quisay explores the emerging trend within Anglo American Islam that emphasises the importance of tradition This book focuses on spiritual retreats hosted by three main shaykhs Hamza Yusuf Abdal Hakim Murad and Umar Faruq Abd Allah to examine how religious authority is formed and affirmed Through interviews with seekers who have attended retreats the author sheds light on how discourses are shaped and practised and analyses how neo traditionalist shaykhs construct the notion of tradition concerning what they perceive to have been lost in modernity The book highlights the importance of neo traditionalism in the changing conceptions of religious orthodoxy religious authority and spirituality for young Muslims in the West and Quisay examines the political implications to the shaykhs critiques of modernity as it pertains to political quietism race and gender Mohamed Morsi: Martyr Or Traitor?.
