Art Disarming Philosophy Steven Shakespeare, Niamh Malone,, Gary Anderson, 2021-09-23 Non philosophy poses a challenge to philosophical thought inspired by the work of Francois Laruelle It questions the idea that philosophy or other disciplines can tell us what it means to think This edited collection brings together an internationally known and interdisciplinary group of scholars including a major new essay by Laruelle himself Together they use non philosophy to cross the boundaries between philosophy and performance Philosophers have been busy for centuries looking for the foundations of truth value and reality They try to say what it all means and how it all fits together Areas of life like science and art have to wait for the philosopher to show up to tell them what they are really about Theory dictates meaning performance just puts it into effect Non philosophy is different It says that reality is not an object out there that we can think and understand The Real is the place we stand it is where we think from Crucially non philosophy understands philosophy itself to be performative It enacts modes of thinking that do not dominate the material of thought and do not capture the Real in concepts Philosophy is mutated by its performances and performances themselves think are modes of theory What happens when we bring philosophy art and performance together without hierarchy How can they get inside and change one another The thinkers in this collection answer these pressing questions

contemporary wellness industry Western Buddhists evade the consequences of Buddhist thought This book shows that with concepts such as vanishing nihility extinction contingency and no self Buddhism like all potent systems of thought articulates a notion of the real Raw unflinching acceptance of this real is held by Buddhism to be at the very core of human awakening Yet these preeminent human truths are universally shored up against in contemporary Buddhist practice contravening the very heart of Buddhism The author s critique of Western Buddhism is threefold It is immanent in emerging out of Buddhist thought but taking it beyond what it itself publicly concedes negative in employing the democratizing deconstructive methods of Fran ois Laruelle s non philosophy and re descriptive in applying Laruelle s concept of philofiction Through applying resources of Continental philosophy to Western Buddhism A Critique of Western Buddhism suggests a possible practice for our time an anthropotechnic or religion transposed from its seductive but misleading idealist haven
