The Price of Prosperity Todd G. Buchholz, 2016-06-07 In this bold history and manifesto a former White House director of economic policy exposes the economic political and cultural cracks that wealthy nations face and makes the case for transforming those same vulnerabilities into sources of strength and the foundation of a national renewal America and other developed countries including Germany Japan France and Great Britain are in desperate straits The loss of community a contracting jobs market immigration fears rising globalization and poisonous partisanship the adverse price of unprecedented prosperity are pushing these nations to the brink Acclaimed author economist hedge fund manager and presidential advisor Todd G Buchholz argues that without a sense of common purpose and shared identity nations can collapse The signs are everywhere Reckless financial markets encourage people to gamble with other people's money A coddling educational culture removes the stigma of underachievement Community traditions such as American Legion cookouts and patriotic parades are derided as corny or jingoistic Newcomers are watched with suspicion and contempt As Buchholz makes clear the United States is not the first

country to suffer these fissures In *The Price of Prosperity* he examines the fates of previous empires those that have fallen as well as those extricated from near collapse and the ruins of war thanks to the vision and efforts of strong leaders He then identifies what great leaders do to fend off the forces that tear nations apart Is the loss of empire inevitable No Can a community spirit be restored in the U S and in Europe The answer is a resounding yes We cannot retrieve the jobs of our grandparents but we can embrace uniquely American traditions while building new foundations for growth and change Buchholz offers a roadmap to recovery and calls for a revival of national pride and patriotism to help us come together once again to protect the nation and ensure our future

Nishant Pal, Shubhangi Maheshwari, 2021-03-24 Social media marketing has become a Massive Source of traffic for contemporary companies particularly those targeting the younger demographic It s rare to find a successful company that doesn t participate with Facebook Twitter and other social media platforms But one platform which is not typically viewed from a marketing perspective is Snapchat the social media app which allows users to send limited viewing time self destructing video and picture messages It might not seem like an ideal platform for marketing however the statistics may surprise you Sumpto a company focused on marketing to college age individuals found that 73% of college students would open a Snapchat from a familiar brand and 45 percent would start one by an unknown brand The app had 30 million users as of December had surpassed the number of users on Instagram in the united states alone and has growing utilization abroad The picture messages do disappear as soon as a user views them however there are still a few interesting and novel marketing chances The most interesting thing about Snapchat Is the immediacy of their experience While there are workarounds to save the images there is still a time limit on how much time it will be on the app As a marketer you can add a sense of urgency Try out Snapchatting a few limited time discount codes for example Keeping in mind that the pictures can only be shown for up to ten seconds keep the code short and easy to remember Crucial to this strategy though is giving a brief deadline for using the codes a few hours or even a day at most This way users may know that they need to open messages from you shortly as soon as they get them to avoid missing the goodies
