*Crime Without Borders* Aaron Fichtelberg, Nicole Fox, Kai Lin, 2025-10-31 This book introduces students to the challenges related to international crime and punishment and the ways that criminal justice systems have sought to confront them The dismantling and opening up of borders by technology transportation international trade and the global flow of labor and capital have allowed those engaging in criminal behavior to work across borders in ways that challenge the traditional nation state and its criminal justice system making the study of international crime and justice increasingly relevant This book not only covers the nuts and bolts of international crime and law enforcement but also raises abstract theoretical issues for debate and asks critical questions about the ideal ways to think about international criminal justice problems Contemporary topics such as war crimes genocide crimes against humanity terrorism drug smuggling human trafficking financial crimes environmental crimes and cybercrime are addressed and connections between globalization politics and criminal justice reflect the modern realities of international and transnational crime Following an introductory chapter that presents the dimensions of international criminal justice the text is organized into two major parts the first part discussing major international crimes and why people engage in them and the second part laying out the central structures of the

international criminal justice system including international courts transnational law enforcement and aspects of United States criminal justice developed to deal with international crimes Throughout the book the authors place global crime within the context of contemporary politics and current events Pedagogical tools such as summaries of significant international cases discussion questions and a thorough bibliography aid reader engagement and understanding This text is suitable for students in global criminology international crime and comparative criminology courses and researchers and policy makers concerned with international and transnational crime

### **Information and Communications for Development 2018**

World Bank, 2018-11-08 The Information and Communications for Development series looks in depth at how information and communications technologies are affecting economic growth in developing countries This new report the fourth in the series examines the topic of data driven development or how better information makes for better policies The objective is to assist developing country firms and governments in unlocking the value of the data they hold for better service delivery and decision making and to empower individuals to take more control of their personal data We are undoubtedly experiencing a data revolution in which our ability to generate process and utilize information has been magnified many times over by the machines that we increasingly rely upon This report is about how the data revolution is changing the behavior of governments individuals and firms and how these changes affect the nature of development economic social and cultural How can governments extract value from data to improve service delivery in the same way that private companies have learned to do for profit Is it feasible for individuals to take ownership of their own data and to use it to improve their livelihoods and quality of life Can developing country firms compete with the internet majors on their own turf and be even more innovative in their use of data to serve local customers better Though the report is aimed primarily at government policy makers it also has great relevance for individuals concerned about how their personal data is used and how the data revolution might affect their future job prospects For private sector firms particularly those in developing countries the report suggests how they might expand their markets and improve their competitive edge For development professionals the report provides guidance on how they might use data more creatively to tackle long standing global challenges such as eliminating extreme poverty promoting shared prosperity or mitigating the effects of climate change The report's chapters explore different themes associated with the supply of data the technology underlying it and the demand for it An overview chapter focuses on government use of data and presentation of definitions Part I of the report then looks at the supply side of the data sector with chapters on data connectivity and capacity where data comes from how it is stored and where it goes and data technology specifically big data analytics and artificial intelligence and how this is contributing to development Part II looks at the sector's demand side with a chapter on people's use of data and another that examines how firms use digital platforms in the data economy and how that contributes to competitiveness Part III brings together the policy implications for developing country stakeholders with a chapter considering government policies for data including data protection and
