## Amazon Apple Watch 2025:

**The Future Is Faster Than You Think** Peter H. Diamandis, Steven Kotler, 2020-01-28 From the New York Times bestselling authors of Abundance and Bold comes a practical playbook for technological convergence in our modern era. In their book Abundance, bestselling authors and futurists Peter Diamandis and Steven Kotler tackled grand global challenges such as poverty, hunger, and energy. Then in Bold, they chronicled the use of exponential technologies that allowed the emergence of powerful new entrepreneurs. Now the bestselling authors are back with The Future Is Faster Than You Think, a blueprint for how our world will change in response to the next ten years of rapid technological disruption. Technology is accelerating far more quickly than anyone could have imagined. During the next decade, we will experience more upheaval and create more wealth than we have in the past hundred years. In this gripping and insightful roadmap to our near future, Diamandis and Kotler investigate how wave after wave of exponentially accelerating technologies will impact both our daily lives and society as a whole. What happens as AI, robotics, virtual reality, digital biology, and sensors crash into 3D printing, blockchain, and global gigabit networks? How will these convergences transform today's legacy industries? What will happen to the way we raise our kids, govern our nations, and care for our planet? Diamandis, a space entrepreneur turned innovation pioneer, and Kotler, bestselling author and peak performance expert, probe the science of technological convergence and how it will reinvent every part of our lives: transportation, retail, advertising, education, health, entertainment, food, and finance, taking humanity into uncharted territories and reimagining the world as we know it. As indispensable as it is gripping, The Future Is Faster Than You Think provides a prescient look at our impending future.

**Your Data, Their Billions** Jane S. Hoffman, 2022-04-19 THE GUIDE TO USING EVERYDAY TECH FROM GOOGLE SEARCHES AND AMAZON TO GPS AND FACEBOOK WITH EYES WIDE OPEN. What if somebody knew everything about you? Your relationships, work, social, and private family history, finances, and medical records, even your exact location at any time of the day, personal preferences, and purchases? Somebody does. That somebody is Big Tech: Facebook, Google, Amazon, Apple, and Microsoft. They know more about you than you do. And they make billions of dollars by cashing in on your private data. Our personal data, which Big Tech companies get for free, is the engine that drives the unregulated, free-for-all Wild West world called the digital marketplace. These corporate giants may bring us information and entertainment, convenience and connection, but they also do a lot of harm by threatening our privacy, discovering and disseminating our personal information, spreading dangerous misinformation from foreign governments and bad actors, manipulating our behavior, affecting what we see, buy, even who we vote for. So, what can we do about it? This eye-opening book provides vital information that has been out of reach to those who need it most: the millions of Facebook, Google, Amazon, Apple, and Microsoft users who have come to love and depend upon these digital products. Veteran consumer advocate Jane Hoffman makes the complex world of Big Tech simple to grasp as she reveals exactly how Big Tech uses and abuses your
