**The Illusion of Eternal Religious Law** Joseph The Monotheist,2024-09-22 This book is the third in a series that presents an attempt to understand the Qur anic revelation published concurrently with the first and second volumes It continues on the work presented in the first two volumes of this series to propose a new interpretation of the Qur anic revelation that is claimed to constitute a more accurate representation of the revelation The first three volumes of this series argue that the religion of Islam or rather the numerous interpretations of Islam are unacceptable representations of the Qur anic revelation The proposed interpretation of the Qur anic revelation challenges the standpoints of Traditional Islam on three key issues inclusiveness the sources of religious knowledge and the composition of any acceptable Qur anic based interpretation of religion Each of the first three volumes of this series is dedicated to one of these topics respectively In this book the stance of the proposed interpretation of the Qur anic revelation on law is addressed This position will prove to be of special significance particularly in the context of modernity and the modern state Furthermore Islamic law and its relationship to the religion of Islam is explored The proposed interpretation of the Qur anic revelation does not see religion to be the source of law but rather it sees religion to be a source of ethics It sees that any acceptable interpretation of religion that is based on revealed scripture should have no law component It rejects religious law altogether and calls for the implementation of secular law In consequence the proposed interpretation of the Qur anic revelation would be redefining the role of religion and its domain of operation What Islam is the book talking about Is it one Islam that around one quarter of the world s population follows Are all of the commands in the Qur an of eternal applicability What is Islamic law commonly

referred to as Shari a Why study Islamic law and why is it important to study it Is there only one Islamic law How does Islamic law relate to Islam Why does this book call for comprehensive religious reform and not religious law reform These questions and a multitude of others are addressed in this volume of the series This book is self contained It can be read as part of the series or independently It does not require the reader to have previous knowledge in any of the topics discussed The book discusses topics you do not find in your typical book about the Qur an or Islam It would interest those who want to learn about the Qur an its message and Islamic law Among this group would be those searching for a reformed understanding of the Qur an and how it applies today those interested to learn about Islamic law what it is and what it is not and those interested in monotheistic religions in general This book will prove to be particularly useful to those seeking to understand the problems in the contemporary interpretations of Islam and consequently how such problems reflect on the Muslim individual and societies in general Keywords Islam Islamic law eternal law revealed scriptures interpretations of scripture theology the Qur an Quran Koran al Qur an el Coran Sunna Hadith Shari a Fiqh monotheism inclusiveness secularism philosophy of law philosophy of religion religious reform religious law reform Arab spring comparative religion philology semantics

*Political Parties in Post-Uprising Tunisia and Morocco* Giulia Cimini,2023-03-31 This book offers a comparative theory grounded study of Maghrebi political parties since the Arab uprisings specifically focused on Tunisia and Morocco in the first decade after the 2011 watershed elections Based on primary sources including in depth interviews and updated party statutes and bylaws the author introduces four case studies of key Islamist and anti Islamist parties exploring their organisational standing internal working and legitimating assets By dwelling into a topic long neglected the author provides insight into the hybrid nature of political parties in the Maghreb oscillating between juxtaposed traditional and modern discourses and ambivalent sources of political authority As such it is hybridisation that shapes parties organisational choices and development and accounts for differences within parties In the wake of political liberalisation the author argues that political parties have become increasingly distant from society distrusted by a large part of the citizenry Ultimately the Tunisian and Moroccan cases invite reflection on similar phenomena taking place within the Middle East and North Africa region and even outside of it Bridging disparate disciplines including comparative politics area studies and contemporary Middle Eastern history the book will be of interest to a broad range of graduate level students and academics
