Vanity Fair, 2017 **Integration of location based services into the social CRM strategy** Annelie Roggenkamp, 2013-05-31 Master's Thesis from the year 2012 in the subject Business economics Offline Marketing and Online Marketing grade 1.0 Berlin School of Economics and Law course International Marketing Management M A language English abstract This thesis aims at critically analyzing Foursquare from a customer relationship management CRM perspective. After elaborating on CRM and carefully scrutinizing the mobile application and its functions the author aims at investigating how Foursquare can be used as a CRM tool throughout the customer relationship life cycle. Since large companies managing renowned brands usually have more sophisticated tools to enforce their CRM strategy this thesis is less concerned with those large enterprises but rather focuses on small local businesses that decide to enter the realm of customer relationship management. **Day Trading Attention** Gary Vaynerchuk, 2024-05-21 New York Times and USA Today Bestseller One thing I've learned being around Gary for the last decade is that when he sees new consumer trends or new best practices in marketing people should listen and act on them. Michael Rubin CEO of Fanatics In his seventh business book best-selling author, entrepreneur and investor Gary Vaynerchuk offers fresh in-depth advice to enhance brand development, grow sales and beat the competition using modern advertising strategies grounded in social media. In his 2013 bestseller *Jab Jab Jab Right Hook* Gary Vaynerchuk showed the world how to create winning content for underpriced attention channels. But since then new platforms have emerged others have become less relevant and algorithms are incentivizing new styles of content. New skills are necessary to create advertising that builds brand and sales. In his latest book Vaynerchuk argues that today's fast-growing businesses, brands, content creators and influencers have one thing in common. They mastered storytelling in areas of underpriced attention which predominantly exists across a handful of social media platforms. Informed by 20 years of business and marketing success he contends that the biggest transformation and opportunity is the TikTokification of Social Media. Increasingly platforms are distributing content based on what users are interested in rather than who they follow. In *Day Trading Attention* Gary offers detailed advice on how small businesses, large corporations and creators can understand
