CONFLICT CHARACTER	EXAMPLE AND PAGES	CHANGE in Elie
VS. NATURE	<p><b>Pages 92-98</b></p> <p><b>(Chapters 6 and 7)</b> - The prisoners were eating snow off other prisoners' backs. Also, all the prisoners had to try to keep warm on the open cattle cars. Someone's face was covered with frost and snow. Him and his father were close together, but he didn't know if he was alive. Other prisoners were about to throw his father out, because he looked dead, but Elie slapped him and his father reacted. There was an old man who had bread, and his son went on top of him, and the father said that he was his father, and the old man died as the son took the bread. Then people went on top of the son, and they were both dead, side by side.</p>	Elie felt that there was no longer a reason to live and struggle. Elie said that he was on 15, and he had seen so many horrible things already.

Psychologists studying cognitive processes and personality have increasingly benefited from the wealth of theory methodology and decision making paradigms used in economics and game theory Similarly for the economists personality traits and basic cognitive processes offer a set of coherent explanatory constructs in economic behavior Given the debate on preference invariance and behavioral consistency across contexts and domains the papers in this topic shed light on the existence and effect of stable sets of idiosyncratic features on economic decision making While the effects of personality and cognition on economic decisions remain under explored the papers contributed in this topic offer more than a stimulus for further research The general message could be that personality and cognitive processes offer the stable idiosyncratic ground on which individual decisions are made *Technical Analysis for the Trading Professional* Constance Brown, 1999-03-31
