This book will be the first one of its kind to focus on early childhood curriculum in Chinese societies from social context and culture to reforms and practices and finally to the lessons that researchers, policymakers and practitioners could learn as well as future directions. Is play valued? Are young children schooled earlier in Chinese societies? How do Chinese children learn in kindergartens? What is valued by Chinese educators when they implement early childhood curricula? How do Chinese teachers deliver early childhood curricula for their young children? Why were Chinese early childhood curricula implemented in these ways? Answers to these questions and more will be provided in this pioneering book.
