UML 2000 - The Unified Modeling Language: Advancing the Standard Andy Evans, Stuart Kent, Bran Selic, 2003-06-29

This book constitutes the refereed proceedings of the Third International Conference on the Unified Modeling Language 2000 held in York UK in October 2000. The 36 revised full papers presented together with two invited papers and three panel outlines were carefully reviewed and selected from 102 abstracts and 82 papers submitted. The book offers topical sections on use cases, enterprise applications, applications, roles, OCL, tools, meta modeling, behavioral modeling, methodology, actions and constraints, patterns, architecture and state charts. Object-Oriented Technology: ECOOP 2001 Workshop Reader Akos Frohner, 2003-08-01. For the 6th time in its history in cooperation with Springer Verlag the European Conference on Object Oriented Programming ECOOP conference series is glad to offer the object oriented research community the ECOOP 2001 Workshop Reader a compendium of workshop reports, panel transcripts and poster abstracts pertaining to the ECOOP 2001 conference held in Budapest from 18 to 22 June 2001. ECOOP 2001 hosted 19 high quality workshops covering a large spectrum of research topics. The workshops attracted 460 participants on the first two days of the conference. Originally 22 workshops were chosen from 26 proposals by a workshop selection committee following a peer review process. Due to the overlaps in the areas of interest and the suggestions made by the committee six of the groups decided to merge their topics into three workshops. This book contains information on the panel poster session and 17 workshop reports for which we have to thank our workshop organizers who did a great job in preparing and formatting them. The reports are organized around the main line of discussion comparing the various approaches and giving a summary on the debates. They also include the list of participants, affiliations, contact information and the list of contributed position papers. Although they usually do not include abstracts or excerpts of the position papers, they do give useful references to other publications and websites where more information may be found.
