New Workplaces—Location Patterns, Urban Effects and Development Trajectories Ilaria Mariotti, Stefano Di Vita, Mina Akhavan, 2021-04-02 This book explores the innovative workplaces, namely coworking spaces and makerspaces, that are emerging as a consequence of digital innovations and the related development of the knowledge economy and society in the wake of deindustrialization. Drawing on international and multidisciplinary research projects, fresh insights are provided into current trends, research methodologies, actors, location patterns, and effects, and urban and regional policies and planning. The aim is to cast light on all aspects of these new working and making spaces, highlighting their innovative geographies and the complexities of their nexus with urban and regional change processes from both the theoretical and the empirical point of view. The book includes multiple illuminating case studies from the advanced economies of North America and Europe, carefully selected for their relevance to the topic under analysis. This book is designed for an international audience comprising not only academicians but also policymakers, representatives of civil and entrepreneurial associations, and business operators.

**Therapeutics of Natural and Synthetic Compounds in Protease-Induced Cancer** Sajal Chakraborti, 2025-06-07 **Therapeutics of Natural and Synthetic Compounds in Protease Induced Cancer** presents a detailed discussion on the role of therapeutic and synthetic compounds in proteases and how they have been utilized to develop anticancer drugs, covering both their structure and functions. In addition, the book explores the experimental and theoretical aspects of natural and synthetic compound design based on proteases. Sections bridge the gap between fundamental and translational research with applications in the biomedical and pharmaceutical industry, making it a thought-provoking read for basic and applied scientists engaged in biomedical research. In 23 chapters, this book gives both insights on the general aspects of the role of natural and synthetic compounds in cancer therapeutics in cancer development, treatment, and their use in clinical trials. Given the breadth and depth of information covered in the respective contributions, the book will be immensely useful for researchers in oncology and for those working to identify targets for drug development. Discusses natural and synthetic compounds as promising targets for future research since they play a pivotal role in cancer progression and response to chemotherapy treatment. Provides insights into the multifaceted role of natural and synthetic compounds in regulating many important cell processes, including cell proliferation, apoptosis, and autophagy. Discusses the key role of compounds in cancer progression, focusing on the status of natural, chemically modified, and synthetic inhibitors in various types of malignancies.

**Regulatory Problems and Disorders in Early Childhood: Aetiology, Contextual Factors, Developmental Outcomes and Pathways, and Treatment Options** Anna Katharina Georg, Ayten Bilgin, Julia Jaekel,2025-01-08 Regulatory problems defined as excessive crying sleeping or feeding problems are among the most common concerns of parents with children 0 5 years old These problems are typically understood within the context of the parent child relationship however the complex underlying mechanisms that explain the occurrence and continuation as well as long term outcomes of regulatory problems are still poorly understood Despite some

promising treatment options important knowledge gaps remain to be addressed which will inform evidence based practice for services of children aged 0-5. With this Research Topic we aim to bring together research from different countries and from multidisciplinary research backgrounds on the topic of regulatory problems and disorders. We particularly encourage research that focuses on observed parent child interactions in relation to regulatory problems. We view regulatory problems as a transdiagnostic biopsychosocial concept covering excessive crying, sleeping and/or feeding and eating problems. However, studies with a focus on any of these problems are also encouraged.

**Handbook on Prisons** Yvonne Jewkes, Ben Crewe, Jamie Bennett, 2016-02-23. The second edition of the Handbook on Prisons provides a completely revised and updated collection of essays on a wide range of topics concerning prisons and imprisonment. Bringing together three of the leading prison scholars in the UK as editors, this new volume builds on the success of the first edition and reveals the range and depth of prison scholarship around the world. The Handbook contains chapters written not only by those who have established and developed prison research but also features contributions from ex-prisoners, prison governors and ex-governors, prison inspectors and others who have worked with prisoners in a wide range of professional capacities. This second edition includes several completely new chapters on topics as diverse as prison design, technology in prisons, the high-security estate, therapeutic communities, prisons and desistance, supermax and solitary confinement, plus a brand new section on international perspectives. The Handbook aims to convey the reality of imprisonment and to reflect the main issues and debates surrounding prisons and prisoners, while also providing novel ways of thinking about familiar penal problems and enhancing our theoretical understanding of imprisonment. The Handbook on Prisons, Second edition is a key text for students taking courses in prisons, penology, criminal justice, criminology and related subjects, and is also an essential reference for academics and practitioners working in the prison service or in related agencies who need up-to-date knowledge of thinking on prisons and imprisonment.
