Sleep Hacks Facebook In The Us:

Indistractable, Updated Edition Nir Eyal, 2025-11-04 Discover the award winning book that has improved hundreds of thousands of lives by changing how we approach distractions. You sit down at your desk to work on an important project but a notification on your phone interrupts your morning. Later as you're about to get back to work a colleague taps you on the shoulder to chat. At home screens get in the way of quality time with your family. Another day goes by and once again your most important personal and professional goals are put on hold. What would be possible if you followed through on your best intentions? What could you accomplish if you could stay focused? What if you had the power to become indistractable? In *Indistractable*, international bestselling author of *Hooked* and behavioral design expert Nir Eyal reveals the hidden psychology driving us to distraction and the keys to getting the best out of technology without letting it get the best of us. Inside Eyal overturns conventional wisdom and reveals why distraction at work is a symptom of a dysfunctional company culture and how to fix it. How traditional to do lists can do more harm than good. New distraction challenges related to remote work and videoconferencing and ways to minimize their impact. What really drives human behavior and why time management is pain management. Case studies and expert guidance for effective timeboxing. Why your relationships and your sex life depend on you becoming indistractable. How to raise indistractable children in an increasingly distracting world. Solving the problem of technology driven distraction is not as simple as swearing off our devices. Abstinence is impractical and often makes us want more. Empowering and optimistic *Indistractable* provides practical, novel techniques to control your time and attention, helping you live the life you really want. [Your Happiness Was Hacked](#) Vivek Wadhwa, Alex Salkever, 2018-06-26. Wadhwa and Salkever have written a great book to help us understand our addiction to technology and suggest what we can do about it. Andr s Oppenheimer columnist for the Miami Herald joint winner of the 1987 Pulitzer Prize Technology your master or your friend. Do you feel ruled by your smartphone and enslaved by your email or social network activities? Digital technology is making us miserable say bestselling authors and former tech executives Vivek Wadhwa and Alex Salkever. We've become a tribe of tech addicts and it's not entirely our fault. Taking advantage of vulnerabilities in human brain function, tech companies entice us to overdose on technology interaction. This damages our lives, work, families and friendships. Swipe driven dating apps train us to evaluate people like products, diminishing our relationships. At work we email on average seventy seven times a day, ruining our concentration. At home, light from our screens is contributing to an epidemic of sleep deprivation. But we can reclaim our lives without dismissing technology. The authors explain how to avoid getting hooked on tech and how to define and control the roles that tech is playing and could play in our lives. And they provide a guide to technological and personal tools for regaining control. This readable book turns personal observation into a handy action guide to adapting to our new reality of omnipresent technology. Technology is a great servant but a terrible master. This is the most important book ever written about one of the most significant aspects of our lives the consequences.
