Scratch) ,2025-07-22 Learn how to create train and tweak large language models LLMs by building one from the ground up

Sebastian Raschka s bestselling book Build a Large Language Model From Scratch is the best way to learn how Large

Language Models function It uses Python and the PyTorch deep learning library It s a unique way to learn this subject which

some believe is the only way to truly learn you build a model yourself Even with the clear explanations diagrams and code in

the book learning a complex subject is still hard This Test Yourself guide intends to make it a little easier The structure

mirrors the structure of Build a Large Language Model From Scratch focusing on key concepts from each chapter You can

test yourself with multiple choice quizzes questions on code and key concepts and questions with longer answers that push

you to think critically The answers to all questions are provided Depending on what you know at any point this Test Yourself

guide can help you in different ways It will solidify your knowledge if used after reading a chapter But it will also benefit you

if you digest it before reading By testing yourself on the main concepts and their relationships you are primed to navigate a

chapter more easily and be ready for its messages We recommend using it before and after reading as well as later when you

have started forgetting Repeated learning solidifies our knowledge and integrates it with related knowledge already in our

long term memory What s inside Questions on code and key concepts Critical thinking exercises requiring longer answers
