

Opinion Essay Example

Topic: Women should stay home if they have young children. They should not have a job or work outside of their house if they have young children. Do you agree or disagree?

Shelby's Response:

I agree with this topic. I believe that if women have young children, they should stay at home full time to take care of the house and kids. For this situation, I think there are many advantages for both women and children.

To begin with, families can save a lot of money if the mother stays home with the children. If both parents work a full time job, they have to put their children in day care or hire a babysitter so someone can take care of the children while the parents are at work. Day cares are very expensive, and a lot of money would go towards babysitting and day cares if both parents had to go to work. If the mother doesn't work and stays home all day, she can watch the children and not spend any money on day care.

Another advantage to stay at home mothers is that the children can spend a lot of time with one parent. If both mother and father are working all day, the children will not see their parents or be able to spend time with them. Children would be with strangers all day at a day care. However, if the mother stays home, the children can at least spend time with one parent all day instead of people they don't know.

Finally, if a married mother stays home and doesn't go to work, it is less stress on her husband. The husband does not have to worry about his children and if they are okay. Also, the mother can clean the house and make dinner before the husband comes home. The husband will not have any worries while he is at work, and he can come home and relax after a long day.

In conclusion, I think mothers with young children should stay home and not work full time. Not only is it better for the children, it's also better for both the mother and father. They can save money and worry less. I think there are more advantages than disadvantages for this situation!

An Exploratory Study of Writing Development Comparing Six Genres Composed by Fourth, Eighth, and Twelfth Graders and Professional Writers Ann Humes, 1987 **Mothers and Children** Elisheva Baumgarten, 2004 This book presents a synthetic history of the family, the most basic building block of medieval Jewish communities in Germany and northern France during the High Middle Ages. Concentrating on the special roles of mothers and children, it also advances recent efforts to write a comparative Jewish-Christian social history. Elisheva Baumgarten draws on a rich trove of primary sources to give a full portrait of medieval Jewish family life during the period of childhood from birth to the beginning of formal education at age seven. Illustrating the importance of understanding Jewish practice in the context of Christian society and recognizing the shared foundations in both societies, Baumgarten's examination of Jewish and Christian practices and attitudes is explicitly comparative. Her analysis is also wideranging, covering nearly every aspect of home life and childrearing, including pregnancy, midwifery, birth, and initiation rituals, nursing, sterility, infanticide, remarriage, attitudes toward mothers and fathers, gender hierarchies, divorce, widowhood, early education, and the place of children in the home, synagogue, and community. A richly detailed and deeply researched contribution to our understanding of the relationship between Jews and their non-Jewish neighbors. *Mothers and Children* provides a key analysis of the history of Jewish families in medieval Ashkenaz.
