War for Profit Charles M. Smith (CPCM.), 2012 WASHINGTON The Army official who managed the Pentagon s largest contract in Iraq says he was ousted from his job when he refused to approve paying more than 1 billion in questionable charges to KBR James Risen New York Times June 17 2008 This book by that very Army official provides an eye opening firsthand account of how the US Government hands over your tax dollars to support contractors like KBR and Halliburton rather than supporting the troops This authoritative and well documented record of the LOGCAP contract in Iraq and Afghanistan is at the same time a study of US participation in Iraq and Afghanistan as well as the workings of government agencies and Congress The first chapter sets the scene briefly narrating the author s work on behalf of US military efforts especially in Iraq Subsequent chapters illustrate specific issues in contractor relations that resulted in unsafe conditions for the troops and blew millions of taxpayer dollars Loyal and hard working government officials and employees who tried to keep things on track were turned away and those who sought to rein in the free for all were sacked The author reveals problems with KBR s provision of transportation electricity food and water Other chapters are more analytic and evaluate Army logistics Congressional oversight and the question of whether letting contracts for this kind of support is appropriate at all the kind of problems that concern military policy leaders defense analysts public policy analysts and scholars in these areas as well as the citizens in whose name this is all done **A Fatal Addiction** Thomas Block, 2012 America one of the most religious countries in the world is also the most violent Do God and war define the American spirit as much as apple pie and baseball This unsettling book illustrates how bellicose war like language is used to explain the spiritual quest It explores the violence of God tradition as it exists in all religions including Buddhism and then examines how this dynamic is flipped

with political leaders using spiritual and religious language to sell war to the general public Although God and religion have often been used to sell war in the United States this has been especially true since 9 11 After surveying the relationship of war and the spiritual quest in the major world religions this study concludes with an overview of how that dynamic has affected the contemporary American public discourse on war Does this intermingling of war and spirituality prepare the population for the coming of war The institutional blending of the sacred and human aggression appear to be fundamental to human society The second section of the book concentrates on the political language and speeches of American politicians since 2002 following the run up to the Iraq war and its continuation over the past decade showing how this mystical war conflation permeates American society

Medical Perspectives on Human Trafficking in Adolescents Kanani E. Titchen,Elizabeth Miller,2020-07-01 Human trafficking is an increasingly large issue in medicine particularly for the adolescent population The pubertal and neurologic development of early and mid adolescence may serves as a foothold for trauma bonds and human trafficking To date there are few case studies of human trafficking in the medical literature More often these cases are missed and human trafficking patients are unlikely to disclose their victimization to their physicians for multiple reasons As a result physicians fail to ask key questions and fail to notice important red flags for human trafficking Research shows that this is primarily due to a lack of medical training and awareness and a resultant denial on the part of many physicians that victims of human trafficking present to their clinics or specialties div This book provides clinicians with a case based guide to scenarios they may encounter in their practice that involve human trafficking These cases include those involving sex trafficking and labor trafficking male and female and transgender victims victims from a range of racial ethnic geographic and socioeconomic backgrounds as well as presentations of adolescent and young adult victims to fields such as adolescent medicine general pediatrics neonatology rheumatology transplant medicine and obstetrics gynecology in addition to the stereotypical presentations to emergency departments Each case is followed by a discussion that highlights key aspects of human trafficking in adolescent and young adult patients These discussions also reference the growing body of research on human trafficking orient the reader to medico legal aspects of reporting human trafficking in the adolescent and young adult populations and feature useful questions exercises and resources to promote discussion among those medical professionals who interact with adolescent medicine and young adult patients Written by physicians legal advocates and lawyers *Medical Perspectives on Human Trafficking in Adolescents* is the definitive guide for all clinicians who care for adolescent patients It is also a useful resource for mental health professionals and social workers

Education and Disability in Cross-Cultural Perspective Susan Jeanne Peters,2013-11-26 A radical departure from previous chronicles of education for people with disabilities this book views special education from a broader perspective Its central thesis is that cultural values and expectations play a dominant role in understanding the structure and function of special education While theories of the social construction of disability have been written about in a growing body of research since the 1960s no attempt has been made to create a cross cultural framework This work offers such a framework Eight chapters written by educators in each country s educational system cover the following nations China Great Britain Hungary Japan Iran Pakistan United States and Zimbabwe Historical discussions in each chapter provide a context for current practice An index and illustrations are also included
