(Re)theorising More-than-parental Involvement in Early Childhood Education and Care Alicja R. Sadownik, Adrijana Višnjić Jevtić, 2023-08-24 This open access book provides a critical thought provoking and stimulating overview of theories applied worldwide to conceptualise collaborations between early childhood education and children's families. The book starts with a critical reflection on the colonial undertones of parental involvement (PI) and acknowledges a strong political will to improve this aspect of early childhood education and care. The chapters in the book describe and discuss various theories including the cultural historical wholeness approach, Bronfenbrenner's ecology of human development, the theory of social capital, the theory of collaboration, family school partnership models proposed by Epstein and Hornby, Bourdieu's social theory, the theory of practice architectures, the discourse narrative theory and posthumanism. By proposing the concept of more than parents, the authors aim to embrace both the diversity of intergenerational family configurations and the agency of materiality, artifacts and the involvement of more than human actors.

A Textbook of Children's and Young People's Nursing E-Book Edward Alan Glasper, James Richardson, 2010-05-19 This popular textbook is aimed at children's nurses in a wide range of practice settings including primary, ambulatory and tertiary care. Covering the full age and specialty spectrum, this text brings together chapters from among the best known children's nurses in the UK. It describes family centred child healthcare drawing upon practice throughout the UK and further afield. This innovative text provides up to date information on a wide range of topics. Each chapter offers readers additional material on Evolve. Full Microsoft PowerPoint presentations that facilitate interactive learning augment the written chapters and provide information not normally possible in a standard textbook, e.g. colour photographs, video clips. Although intended for nurses, the book adopts an interprofessional problem solving and reflective approach aimed at students, practitioners and child health educators. Material is offered from levels 1, 3 and some of the ancillary material extends into the postgraduate arena. Each chapter offers readers additional material on an Evolve website. Full Microsoft PowerPoint presentations augment the written chapters and provide extra information that includes case studies, moving image photographs and text. Aims, objectives, learning outcomes, a summary box in each chapter and key points assist learning and understanding. Professional conversation boxes enliven the text on the page and make it more interesting to dip into. Suggestions for seminar discussion topics to help teachers. Case studies help to relate theory to practice. Prompts to promote reflective practice. Activity boxes, suggested visits, Evidence based practice boxes which

Challenging the School Readiness Agenda in Early Childhood Education Miriam B. Tager, 2017-03-27 Challenging the normative paradigm that school readiness is a positive and necessary objective for all young children this book asserts that the concept is a deficit based practice that fosters the continuation of

discriminatory classifications Tager draws on findings of a qualitative study to reveal how the neoliberal agenda of school reform based on high stakes testing sorts and labels children as non ready affecting their overall schooling careers Tager reflects critically on the relationship between race and school readiness showing how the resulting exclusionary measures perpetuate the marginalization of low income Black children from an early age Disrupting expected notions of readiness is imperative to ending practices of structural classism and racism in early childhood education *Temperament-Based Therapy with Support for Anorexia Nervosa* Laura L.
