This technical guide on Improving governance of forest tenure helps to take action in four critical areas understanding organizing engaging and ensuring in order to improve decision making about forest goods and services It starts by highlighting some key opportunities and challenges in governance today and directs to further information including a toolkit containing some 86 tools described in summary form and 9 key tools A glossary and extensive Web linked bibliography are also provided for further inspiration **Survey of Economic and Social Developments in the Arab Region 2015-2016** United Nations Publications,2017-01-04 Trends can be noted for the past five years and with this in mind the 2015 16 Survey will utilize recent data in order to take stock of the impact of instability and conflict and address the foregone growth and output and destructive effects of this period Environmental Performance Reviews United Nations Publications,2018 The present publication contains the Environmental Performance Review of Mongolia The report takes stock of progress made by the country in the management of its environment since 1987 It covers legal and policy frameworks compliance assurance greening the economy environmental monitoring public participation and education for sustainable development Furthermore the EPR addresses issues of specific importance to the country related to air protection biodiversity conservation as well as water waste and land management It also examines the efforts of Mongolia to integrate environmental considerations in its policies in the forestry and health sectors and highlights the progress achieved in the management of disaster risk associated with natural and man made hazards The review further provides a substantive and policy analysis of the country s participation in international cooperation on the environment with a specific focus on the three Rio Conventions Publisher s description Practical Approaches for Involving Traditionally Underserved Populations in Transportation Decisionmaking David Aimen,Anne Caroline Morris,2012 TRB s National Cooperative Highway Research Program NCHRP Report 710 Practical Approaches for Involving Traditionally Underserved Populations in Transportation Decisionmaking highlights tools techniques and approaches for identifying and connecting with populations that have traditionally been underserved and underrepresented in transportation decisionmaking Biofuels and the Sustainability Challenge Aziz Elbehri,Anna Segerstedt,Pascal Liu,2013 Biofuels global emergence in the last two decades is met with increased concerns over climate change and sustainable development This report addresses the core issue of biofuel sustainability of biofuels and related feedstocks drawing from a wide range of sustainability related studies reports policy initiatives The report critically examines the economic environmental and social sustainability dimensions of biofuels and review the major certification initiatives schemes and regulations In doing so the report relies on extensive review of a number of country case studies covering a broad range of current biofuel feedstocks systems The report analysis clearly distinguish feedstock efficiency in terms of biofuel yields per unit of land from sustainability especially under limiting

resource irrigated water or sensitive areas carbon stocks Also long run economic viability depend on the future policy support technical innovations in biofuel systems economics of biofuel supply and demand and trade offs between food and energy uses as well as feedstock productivity gains Biofuels can present both advantages and risks for environmental sustainability the latter being often difficult to measure or monitor and may conflict with economic sustainability unless great strides in productivity gains are achieved Social sustainability is the weakest link in current biofuel certification schemes owing to intrinsic local factors and as efforts target more few negative social impacts much less focus is placed on inclusive processes that strengthen marginal stockholders participation and benefits Biofuel certification schemes need to be more smallholder inclusive perhaps through policy initiatives Finally poor developing countries especially with abundant land and biomass production potential need to prioritise food security and poverty reduction In many cases biofuel models that encourage small scale integrated bioenergy systems may offer higher rural development impacts FDI induced larger scale biofuel projects on the other hand may be suitable in those situations where countries have sufficient industrial capacity besides land and biomass potential and when these biofuel projects can be fully integrated into domestic energy strategies that do not conflict with food production potential and food security Handbook of Environmental Law P. B. Sahasranaman,2009 Provides a comprehensive study of legislation regulations and case law relating to environmental protection in India
