**Migration and Migrant Identities in the Near East from Antiquity to the Middle Ages** Justin Yoo,Andrea Zerbini,Caroline Barron,2018-10-29 This book brings together recent developments in modern migration theory a wide range of sources new and old tools revisited from GIS to epigraphic studies from stable isotope analysis to the study of literary sources and case studies from the ancient eastern Mediterranean that illustrate how new theories and techniques are helping to give a better understanding of migratory flows and diaspora communities in the ancient Near East A geographical gap has emerged in studies of historical migration as recent works have focused on migration and mobility in the western part of the Roman Empire and thus fail to bring a significant contribution to the study of diaspora communities in the eastern Mediterranean Bridging this gap represents a major scholarly desideratum and by drawing upon the experiences of previously neglected migrant and diaspora communities in the eastern Mediterranean from the Hellenistic period to the early mediaeval world this collection of essays approaches migration studies with new perspectives and methodologies shedding light not only on the study of migrants in the ancient world but also on broader issues concerning the rationale for mobility and the creation and features of diaspora identities

## **Empire, Celebrity and Excess**

Martin Francis,2022-10-20 While now long forgotten King Farouk of Egypt loomed large in British culture in the 1940s and 1950s Farouk was of interest and importance not just to British imperial policy makers but to a wider public that was exposed to his extravagant lifestyle and colourful private life through gossip columns comedy sketches cartoons song lyrics and novels This book explores how the narratives and representations of King Farouk found in British official and popular culture dramatized the retreat from empire the rise of celebrity journalism changing conceptions of masculinity and sexuality ambivalent attitudes towards monarchy postcolonial exile the growth of mass tourism and the post war transition from austerity to abundance By considering diplomatic history in tandem with histories of popular culture and celebrity Francis presents a more holistic understanding of British culture during the era of decolonization The varied cultural and social

features of post war Britain and the reconstitution of British identity in the aftermath of empire sexual liberalization Americanization consumer affluence increased interaction with Europe new forms of mass leisure and the emergence of celebrity culture did not take place independently of the dismantling of imperial rule Studying Farouk therefore sheds new light on the multiple and complex ways in which Britain emerged as a postcolonial nation
