Pets are deemed to be tamed animals which reside with you as companions. Pets often reside in the same environments as human beings such as home environments. Pets are able to provide people with companionship and usher in unalloyed excitement into their lives. A mostly empty room feels all the more lively when it is inhabited by pets. Ushering in a couple dogs or a couple cats into a mostly empty room reinvigorates the atmosphere of the room. A room that provides a solitary environment no longer is an solitary environment when it is inhabited by pets. Pets are

often companion animals Having pets is able to provide a myriad of benefits to people Pets for instance can help people to alleviate stress and anxiety Pets for instance can also help people to be motivated to exercise more frequently Pet can also help people to remedy loneliness and can help people to promote their well being if they feel at ease as a result of having pets Spending time with a pet can boost a person s mood and allow them to divert their attention away from the dwelling on stressors anxieties fears and pessimistic thoughts if a person for instance lives an ineffable distressful harrowing and agonizing life that undermines their well being Diligently taking care of a pet is a major responsibility that not everyone is properly prepared to handle Diligently taking care of a pet requires a person to constantly tend to the pet s needs and not shirk on doing so Diligently taking care of a pet can require a substantial amount of time and can be expensive Not everyone has the wealth to be able to become a pet owner Certain people are reticent about ushering pets into their home environments since doing so can be an encroachment on the pet s right to liberty In other words having a pet entrapped in a home environment is a disservice to a pet since it deprives them of the right to liberty A fish entrapped in a fish bowl is denied the opportunity to traverse the ocean A bird entrapped in a bird cage is denied the opportunity to fly across the sky A frog entrapped in a vivarium tank is denied the opportunity to live in wetlands A dog entrapped in a home environment is denied the opportunity to live in prairies A rabbit entrapped in a home environment is denied the opportunity to live in meadows A cat entrapped in a home environment is denied the opportunity to live in grasslands A horse entrapped in a horse pen is denied the opportunity to live in prairies Certain people are deterred to own a pet since they believe that doing so would be an encroachment on the pet s right to liberty which would thereby compromise the pet s quality of life It can be cumbersome to provide a pet with a higher standard of living then they could reap if they were able to live anywhere in the wild Not everyone is capable of providing a pet with a higher standard of living then they could reap if they were able to live anywhere in the wild It does however remain enigmatic if a pet with a mediocre standard of living is happier living with human beings in a home environment
