The Metaverse Matthew Ball, 2024-07-23 From the leading theorist of the Metaverse comes the eagerly anticipated revised and updated account of the next internet what the Metaverse is what it will take to build it and what it means for all of us A Hudson Booksellers Amazon Guardian Financial Times Economist and ByteDance Toutiao Best Book of the Year In this substantially revised and updated edition of his internationally best selling book pioneering theorist and entrepreneur Matthew Ball goes beyond the hype cycle to present a definitive account of the future of the internet The Metaverse according to Ball s industry shaping definition is a persistent and interconnected network of 3D virtual worlds that will eventually serve as the gateway to most online experiences and underpin much of the physical world As Ball recounts the Metaverse is a thirty year old term and the core ideas and technologies behind it have been in development for nearly a century Only recently however did this fantastical concept begin to leap from the pages of science fiction and depths of national research labs to the forefront of consumer technology industrial engineering healthcare education dating and more From the history of video games and virtual reality to proto metaverses such as Second Life Fortnite and Roblox to Generative AI and the groundbreaking films and television series of the Walt Disney Company Ball points out that the Metaverse is already emerging around us and doesn t require a headset Still there are many breakthroughs required to fully realize the Metaverse and he describes each in approachable but expert detail Ball also lays out how governmental policy the philosophy of Big Tech leaders artificial general intelligence economics and human rights will shape the development of the Metaverse Famous for his ability to bring clarity to complex and misunderstood topics Ball demonstrates that the race to build the Metaverse also known as the spatial or immersive internet is only accelerating The Metaverse will endure as an indispensable guide for enthusiasts tech aficionados and anyone curious about the profound transformations underway in our increasingly interconnected world

Playthings and Playtimes Hannah Field, Seth Giddings, Ben Highmore, 2025-10-29 In 2024 at the Barbican Art Gallery in London the Mexico based Belgian artist Francis Al

s exhibited films of children from across the world playing with sticks hoops marbles and other toys The implication was clear play feels and looks like a universal language but takes on specific local forms Using this as a starting point Playthings and Playtimes explores the conflict and contradictions that circulate when play is simultaneously recognized as a species attribute part of human nature and as something crucially differentiated across time and space by design technology sentiment pedagogic values and so on The chapters in this volume demonstrate this interplay between the fixed and the mutable Topics range from the elaborate miniature worlds made by H G Wells and his sons to digitized fidget spinners from avant garde Uruguayan artist Joaquín Torres García's wooden blocks to the playground spaces of Kuwait and from the much maligned plastic toy to the new museum Young V&A Together they bring play and the world of feelings into sustained contact with the history of material culture and design psychoanalysis childhood studies and other disciplines concerned with play culture In the process Playthings and Playtimes investigates key elements of a humanities approach to the modern world through the prism of play's affective materiality

Artificial Intelligence and Playable Media Eric Freedman, 2022-09-02 This book introduces readers to artificial intelligence AI through the lens of playable media and explores the impact of such software on everyday life From video games to robotic companions to digital twins artificial intelligence drives large sectors of the culture industry where play media and machine learning coexist This book illustrates how playable media contribute to our sense of self while also harnessing our data tightening our bonds with computation and realigning play with the demands of network logic Author Eric Freedman examines a number of popular media forms from the Sony AIBO robotic dog video game developer Naughty Dog's Uncharted and The Last of Us franchises to Peloton's connected fitness equipment to lay bare the computational processes that undergird playable media and addresses the social cultural technological and economic forces that continue to shape user centered experience and design The case studies are drawn from a number of related research fields including science and technology studies media studies and software studies This book is ideal for media studies students scholars and practitioners interested in understanding how applied artificial intelligence works in popular public and visual culture

Swarms, Viral Writing, and the Local Carl Whithaus, 2025-04-15 *Swarms Viral Writing and the Local* examines the social and rhetorical dynamics around emerging writing technologies Carl Whithaus argues that these dynamics work across networked publics as patterns of behavior and ways of interacting through and with multimodal texts This rhetorical analysis of the production and reception of born digital rhetoric shows the ongoing and evolving impacts of online public discourse that can lead to bad restaurant reviews or the subversion of democracy It is a networked process that gains significance because of the interplay and tensions between the global and the local As these texts are created distributed received and then recreated and shared again in viral ways different messages resonate across media ecologies Whithaus documents how emerging social dynamics shape and are shaped by digital writing reading and distribution technologies
